Mr. and Mrs. J. Kiyak Ready to Help You

Green Valley Landscape Dept.—A. Anderson & R. Young

To Our Customers

A GAIN it's Spring and time for us to greet our many friends. Taking this opportunity, we would like to thank our many customers for their continued patronage. We realize more and more how important it is to keep our good customer relationship. This we try to do by maintaining our high standards, reasonable prices and a willingness to help you with your planting problems.

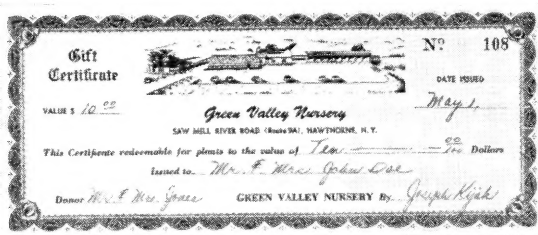

You are always welcome at Green Valley. Here you will find many acres of the newest, finest and best cared for nursery stock in Westchester. We have two huge shade houses where plants are kept fresh and in first-class condition after digging. Green Valley's facilities and trained personnel are such that we can handle any number of customers courteously and promptly. We carry a complete line of Nursery Stock, Perennials and Annuals. In our store you will find everything needed for your gardening requirements such as Fertilizers, Insecticides, Garden Equipment, etc. **Visitors Welcome Any Time.**

LANDSCAPE SERVICE

Green Valley Nursery landscape service is excellent. In this department your individual planting problems will be handled by experienced men. A plan can be worked out whereby the planting can go on over a period of time. You will be assured of the correct placement of each plant with regard to a pleasing final picture.

Our work is supervised by one of the men from the Landscape Department, who follows the job from the drawing board to completion. You can take advantage of this landscape service or **Do It Yourself.** Even if you purchase only a few plants at a time, the final results will be a planting to be proud of.

Come into our nursery, or let us consult with you on your grounds regarding your landscape needs.

GIVE A LASTING GIFT

Purchase a Green Valley Gift Certificate for any amount at any time of the year and let the recipient choose his own living plant as a reminder of your good taste and thoughtfulness.

Green Valley Nursery

Landscape for Better Living

For true weekend enjoyment with your family, compare the pleasant coolness of this terrace to the rush and confusion of a busy highway. This is relaxation. This is living at its best. And it's right in your back yard.

With a little planning, a little effort and less money than you think, this kind of enjoyment can be yours.

EVERGREENS (Narrow Leaved)

In this group we find trees that grow only a foot or so high and others that grow into large specimens. Evergreens are the most versatile of all trees. Their colors range from dark-green to light-green, from blue-green to golden-green. When Evergreens are used in groups they create a pleasing and colorful combination.

In the list below you will find Evergreens to suit any purpose you have in mind. Our stock is inspected and certified to be free of insects and diseases.

CYPRESS

These plants are good for foundation planting or specimens. Many varieties and color shades in this group. Should be sheared occasionally.

Chamaecyparis obtusa nana compacta

DWARF HINOKI CYPRESS

Compact, dense, dwarf plant suitable for rockery.

10 to 12 in.....Ea. \$5.00	15 to 18 in.....Ea. \$12.00
12 to 15 in.....Ea. 7.00	18 to 24 in.....Ea. 14.00

C. obtusa gracilis **SLENDER HINOKI CYPRESS**

15 to 18 in.....Ea. \$6.00	18 to 24 in.....Ea. \$8.00
----------------------------	----------------------------

C. plumosa **PLUME CYPRESS**

Dense, compact, conical tree. Rapid grower.

18 to 24 in.....Ea. \$4.00	3 to 4 ft.....Ea. \$9.00
2 to 3 ft.....Ea. 5.50	4 to 5 ft.....Ea. 12.00

C. plumosa aurea **GOLDEN PLUME CYPRESS**

Tip growths are a golden yellow.

18 to 24 in.....Ea. \$4.00	3 to 4 ft.....Ea. \$9.00
2 to 3 ft.....Ea. 5.50	4 to 5 ft.....Ea. 12.00

Pfitzer Juniper

JUNIPERS

A good ornamental plant. The spreading varieties are excellent for Rock Gardens. The upright forms make beautiful specimens. Should be planted in full sun; hardiest of all evergreens.

Juniperus chinensis columnaris

COLUMNAR JUNIPER

A fast growing, conical tree with gray-green foliage.

3 to 4 ft.Ea. \$7.00	5 to 6 ft.....Ea. \$14.00
4 to 5 ft.....Ea. 10.00	

J. chinensis hetzi **HETZ JUNIPER**

Spreading Juniper. Blue green foliage. Compact.

12 to 15 in.....Ea. \$3.50
15 to 18 in.....Ea. 4.50
18 to 24 in.....Ea. 6.50
2 to 2½ ft.....Ea. 8.50

J. chinensis keteleeri

KETELEER JUNIPER

A good variety of upright Juniper suitable for foundation planting.

3 to 3½ ft.....Ea. \$8.00
3½ to 4 ft.....Ea. 10.00
4 to 4½ ft.....Ea. 14.00
5 to 5½ ft.....Ea. 16.00
6 to 7 ft.....Ea. 18.00
7 to 8 ft.....Ea. 20.00

J. chinensis pfitzeriana

PFITZER JUNIPER

A low and spreading tree with silvery green foliage. Good for ground cover, banks and corner planting.

15 to 18 in.....Ea. \$4.50
18 to 24 in.....Ea. 6.00
2 to 2½ ft.....Ea. 7.50
2½ to 3 ft.....Ea. 10.00
3 to 3½ ft.....Ea. 14.00

Sargent Juniper

JUNIPERS—Continued**J. chinensis sargentii****SARGENT JUNIPER**

A dwarf trailing, dark green evergreen, perfect for rock garden. No more than a few inches high.

12 to 15 in. Ea. \$5.50 | 18 to 24 in. Ea. \$8.50
15 to 18 in. Ea. 6.50 | 24 to 30 in. Ea. 10.50

J. communis depressa plumosa ANDORRA JUNIPER

A dwarf, low-spreading evergreen with bright green foliage in Summer and reddish purple in Winter. Good for bank and rock garden planting.

12 to 15 in. Ea. \$3.00 | 18 to 24 in. Ea. \$5.50
15 to 18 in. Ea. 4.50 | 2 to 2½ ft. Ea. 6.50

J. excelsa stricta**GREEK JUNIPER**

A slow growing, upright columnar tree with gray green foliage. Good for rock gardens.

12 to 15 in. Ea. \$2.50 | 18 to 24 in. Ea. \$4.50
15 to 18 in. Ea. 3.50 | 2 to 2½ ft. Ea. 6.50
2½ to 3 ft. Ea. \$8.00

J. meyeri**MEYER JUNIPER**

Irregular, upright growing tree with blue foliage.

15 to 18 in. Ea. \$3.50 | 18 to 24 in. Ea. \$5.50

J. virginiana glauca**SILVER JUNIPER**

A compact, conical tree with silver-blue foliage. Good for foundation planting.

2½ to 3 ft. Ea. \$6.50 | 3½ to 4 ft. Ea. \$9.00
3 to 3½ ft. Ea. 7.50 | 4 to 5 ft. Ea. 14.00

PINES

The tall growing varieties are excellent for windbreaks and screens. The low spreading form is ideal for rockeries. Will grow in dry ground.

Pinus montana mughus**MUGHO PINE**

A slow growing, spreading type tree with dark green needles. Used for rock gardens and bank plantings.

12 to 15 in. Ea. \$5.00 | 2 to 2½ ft. Ea. \$9.00
15 to 18 in. Ea. 6.50 | 2½ to 3 ft. Ea. 14.00

A Specimen Mugho Pine

PINES—Continued**P. strobus****WHITE PINE**

An upright tree with soft blue-green needles. This is one of the most valued evergreens for screening and windbreak purposes. It is a fast growing tree of symmetrical habit which can be sheared. It transplants readily and trees up to 25 ft. can be easily moved. The soil requirements are not too important and it seems to thrive in dry or slightly wet ground.

2 to 3 ft. Ea. \$3.50 | 5 to 6 ft. Ea. \$14.00
3 to 4 ft. Ea. 5.00 | 6 to 7 ft. Ea. 16.00
4 to 5 ft. Ea. 8.00 | 7 to 8 ft. Ea. 20.00

Large Specimens—Priced upon selection

DOUGLAS FIR

Pseudotsuga douglasii**DOUGLAS FIR**

A vigorous grower with green gray foliage. Grows symmetrically into a large specimen. Also used for screening.

2 to 3 ft. Ea. \$6.00 | 4 to 5 ft. Ea. \$10.00
3 to 4 ft. Ea. 8.00 | 5 to 6 ft. Ea. 15.00

Colorado Blue Spruce

SPRUCE

Used for screen and border plantings, also very good as specimens. Will tolerate a rather poor soil.

Picea canadensis**WHITE SPRUCE**

A neat, compact, cone-shaped tree with gray green needles.

18 to 24 in. Ea. \$3.00 | 2 to 2½ ft. Ea. \$6.00
3 to 4 ft. Ea. \$8.00

P. excelsa**NORWAY SPRUCE**

Rapid growing tree, good for specimen and screen work.

18 to 24 in. Ea. \$3.00 | 2½ to 3 ft. Ea. \$6.50
2 to 2½ ft. Ea. 5.00 | 3 to 3½ ft. Ea. 7.50

P. glauca conica**ALBERTA SPRUCE**

Very rare. A charming, compact, cone-shaped evergreen with very dense foliage, and of slow growth. Good for rock garden.

12 to 15 in. Ea. \$7.00 | 18 to 24 in. Ea. \$9.00

P. kosteriana**KOSTER BLUE SPRUCE**

2 ft. Ea. \$12.00

P. pungens**COLORADO SPRUCE**

Thick, green gray needles. Used as specimen.

18 to 24 in. Ea. \$6.00 | 2 to 3 ft. Ea. \$8.00
3 to 4 ft. Ea. \$12.00

ARBORVITAE

An evergreen well adapted to formal hedges because of its symmetrical and narrow habit of growth. Used also as a specimen or foundation plant. Likes full sun, not particular as to soil, will grow in moist ground.

Thuja occidentalis pyramidalis

PYRAMIDAL ARBORVITAE

A narrow pyramidal type. Used for hedges and screening when space is very limited. Can be sheared or left natural.

2 to 3 ft.....Ea. \$5.00	4 to 5 ft.....Ea. \$8.50
3 to 4 ft.....Ea. 7.50	5 to 6 ft.....Ea. 12.00
6 to 7 ft.....Ea. \$15.00	

T. occidentalis nigra DARK AMERICAN ARBORVITAE

An upright variety, the darkest green of the Arborvitae. This plant is so superior to the regular American variety that we handle it exclusively. A very desirable plant for hedges and screening where space is limited. Does not like too much shade.

18 to 24 in.....Ea. \$3.50	4 to 5 ft.....Ea. \$9.00
24 to 30 in.....Ea. 5.50	5 to 6 ft.....Ea. 12.00
3 to 4 ft.....Ea. 7.50	6 to 7 ft.....Ea. 18.00

T. occidentalis woodwardi GLOBE ARBORVITAE

Ideal for rock gardens, or any sunny location. Keeps its round globular shape without shearing.

12 to 15 in.....Ea. \$3.50	18 to 24 in.....Ea. \$4.50
----------------------------	----------------------------

T. orientalis aurea nana GOLDEN BIOTA

A neat rounded evergreen on the dwarf side that needs no shearing. Keeps its golden-yellow color all year round. Plant in full sun.

15 to 18 in.....Ea. \$3.50	18 to 24 in.....Ea. \$4.50
2 to 2½ ft.....Ea. \$6.00	

DIGGING AND HANDLING PLANT MATERIAL

Evergreen plants (narrow leaved or broadleaf) are always transplanted with a ball of earth. This is called balled & burlapped (B&B). Plants of this nature are handled this way because they are evergreen and transpire (give off moisture) continuously. There are also some deciduous types (lose their leaves in the Fall), that have to be handled B&B or grown in containers because of their inability to recover after transplanting.

Almost all deciduous plants except very large specimens are dug and handled bare root (B.R.) when they are dormant. A plant is dormant after it has shed its leaves in the Fall and before growth starts in the Spring.

EVERGREEN SCREENING PLANTS

Where a tall hedge or screening is wanted, the following are ideal. They are also useful as windbreaks and background material for flowering trees and shrubs.

Tsuga canadensis

CANADIAN HEMLOCK

One of the best evergreens for hedge or screen. Can be kept to any desired height by shearing. The more these trees are sheared the heavier and fuller they get. Will tolerate part shade. (See page 9.)

Thuja

ARBORVITAE

The Arborvitae is excellent where a tall, narrow hedge or screen is desired. Will not grow as wide as the Hemlock and can therefore be used where space is limited. Will not tolerate shade. (See opposite column.)

Pinus strobus

WHITE PINE

Where a large mass screening is desired, this tree will fill the bill. Should only be used where space is not too limited as their eventual size is quite large. Plant in the open, will not windburn. (See page 6.)

Planting Instructions for Balled Material

Figures: I and II

1. The hole is dug a little deeper than the ball and from 8 to 12 inches wider. Keep top soil and sub soil separate. Fig. I.
2. Plant is faced and centered in hole.
3. Several inches of top soil and humus is packed around ball. Cut burlap and fold it back into hole. Fig. I.
4. Continue to back fill hole with top soil and humus, packing as you go.
5. As the top soil runs out finish off with sub soil on top leaving a ring or saucer of soil above ground to hold moisture around plant. Fig. II. Fill this saucer with water, let settle and fill again. After this the plant should be watered twice a week.
6. Stake and wire trees as indicated in Fig. II.

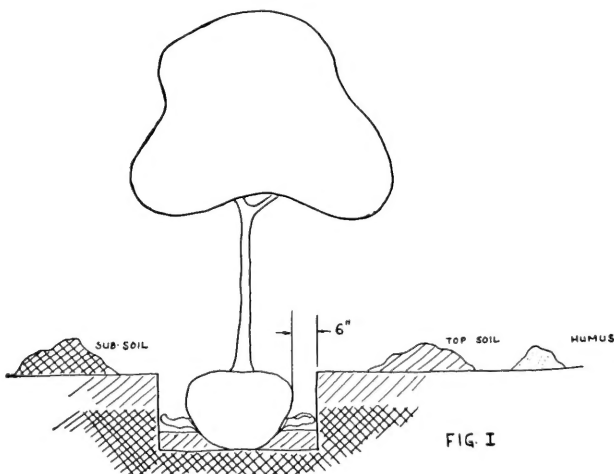

Fig I

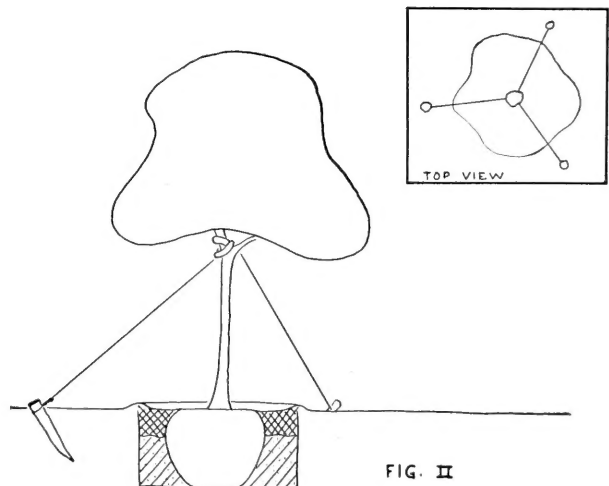

Fig. II

YEWS

An ideal plant for the home grounds. Can be used for foundation, hedge, or specimen plantings. Dark green foliage with red berries. Will grow in sun or shade. Not particular as to soil.

Taxus baccata repandens SPREADING ENGLISH YEW

Dark green foliage on spreading and slightly weeping branches. Good for rock gardens and as specimen.

12 to 15 in. Ea. \$5.75 | 15 to 18 in. Ea. \$7.00
18 to 24 in. Ea. \$10.00

SPREADING JAPANESE YEW **Taxus cuspidata**

Deep green foliage with more spread than height. Ideal for low hedges and planting around the house. Perfectly hardy, will not freeze back. With a little shearing the size can be kept under control and the density of the plant increased. Bears red berries in the Fall.

12 to 15 in. Ea. \$3.75 | 2 to 2½ ft. Ea. \$9.50
15 to 18 in. Ea. 6.00 | 2½ to 3 ft. Ea. 14.00
18 to 24 in. Ea. 7.75 | 3 to 3½ ft. Ea. 16.00

T. cuspidata brevifolia DWARF JAPANESE YEW

A dwarf, slow growing Yew of irregular habit especially suited for formal hedges or rockeries. Its deep green color is retained all year and it bears an abundance of red fruits. This plant is absolutely hardy and like all Yews will tolerate shade.

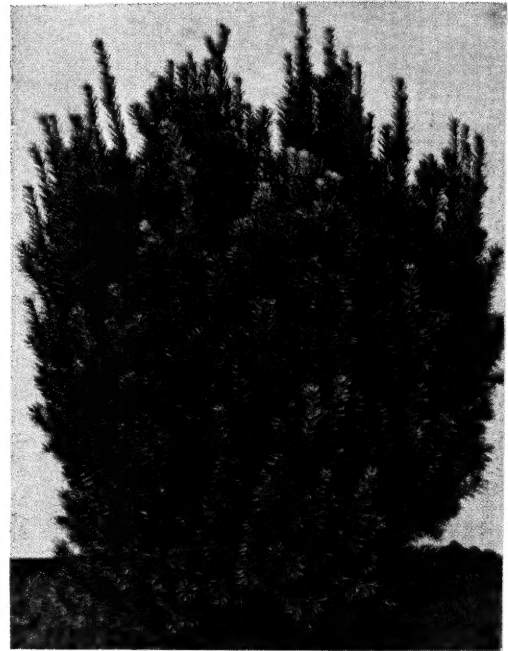

12 to 15 in. Ea. \$5.50 | 15 to 18 in. Ea. \$7.50
18 to 24 in. Ea. \$9.50

UPRIGHT JAPANESE YEW

Taxus cuspidata capitata

Upright tree form of the Spreading Yew. Excellent for high corners around a building or as a specimen. This form is the most popular of the Yews and can rightly be called the aristocrat of the evergreens. Requires very little shearing and bears an abundance of red berries.

18 to 24 in. Ea. \$7.00 | 3½ to 4 ft. Ea. \$18.50
2 to 2½ ft. Ea. 9.00 | 4 to 4½ ft. Ea. 22.00
2½ to 3 ft. Ea. 13.00 | 4½ to 5 ft. Ea. 27.00
3 to 3½ ft. Ea. 15.00 | 5 to 5½ ft. Ea. 35.00
5½ to 6 ft. Ea. \$40.00

Taxus hatfieldi

T. cuspidata densiformis DENSE SPREADING TAXUS

This is a distinctive form of *T. cuspidata* and as its name implies it has a very compact dense habit of growth. It can be kept very dwarf and thick with an occasional shearing.

15 to 18 in. Ea. \$6.00 | 18 to 24 in. Ea. \$8.00
2 to 2½ ft. Ea. \$10.00

T. hatfieldi HATFIELD SPREADING YEW

A spreading Yew but more upright and with a thicker growth habit than the *T. cuspidata*. Use in the foundation planting or as accent plants.

15 to 18 in. Ea. \$5.50 | 2 to 2½ ft. Ea. \$10.00
18 to 24 in. Ea. 7.50 | 2½ to 3 ft. Ea. 14.00
3 to 3½ ft. Ea. \$16.00

T. hatfieldi HATFIELD UPRIGHT YEW

An upright form of Yew quite similar to the *T. hicksi* but growing fuller at the base. The best of all Yews for a medium to high hedge, also well suited as a foundation plant.

15 to 18 in. Ea. \$5.00
18 to 24 in. Ea. 6.50
2 to 2½ ft. Ea. 9.00
2½ to 3 ft. Ea. 12.00
3 to 3½ ft. Ea. 15.00

HICKS YEW **Taxus media hicksi**

The darkest green of all the Yews, heavily laden with red berries in the Fall. Because of its versatility this plant can be used almost any place—foundation plantings, hedges, screenings, specimens, etc.

12 to 15 in. Ea. \$3.50
15 to 18 in. Ea. 4.50
18 to 24 in. Ea. 6.00
2 to 2½ ft. Ea. 7.50
2½ to 3 ft. Ea. 11.00
3 to 3½ ft. Ea. 14.00
3½ to 4 ft. Ea. 18.00

T. media browni BROWNS YEW

A rounded full compact Yew of spreading habit and very dark green foliage. Ideal plant when a low to medium high hedge is desired.

18 to 24 in. Ea. \$7.50
3 to 3½ ft. Ea. 15.00

Taxus cuspidata

HEMLOCKS

Hemlocks do well in full sun or part shade. They can be used in hedges or foundation plantings if kept sheared. When used for border or screen plants, they should be left to grow natural with only an occasional clipping.

Tsuga canadensis

CANADIAN HEMLOCK

One of the most graceful and adaptable of all evergreens. Used for foundation planting, screening, and as specimens.

15 to 18 in. Ea. \$4.50	3½ to 4 ft. Ea. \$12.50
18 to 24 in. Ea. 5.50	4½ to 5 ft. Ea. 16.00
2 to 2½ ft. Ea. 7.50	5 to 5½ ft. Ea. 18.00
2½ to 3 ft. Ea. 8.50	5½ to 6 ft. Ea. 22.00
3 to 3½ ft. Ea. 9.50	6 to 7 ft. Ea. 26.00

SIEBOLD HEMLOCK

Tsuga Sieboldi

A dwarf Hemlock, hardy in this area. Not too well known but a very desirable plant.

15 to 18 in. ... Ea. \$6.00	2½ to 3 ft. ... Ea. \$15.00
-----------------------------	-----------------------------

CAROLINA HEMLOCK

Tsuga caroliniana

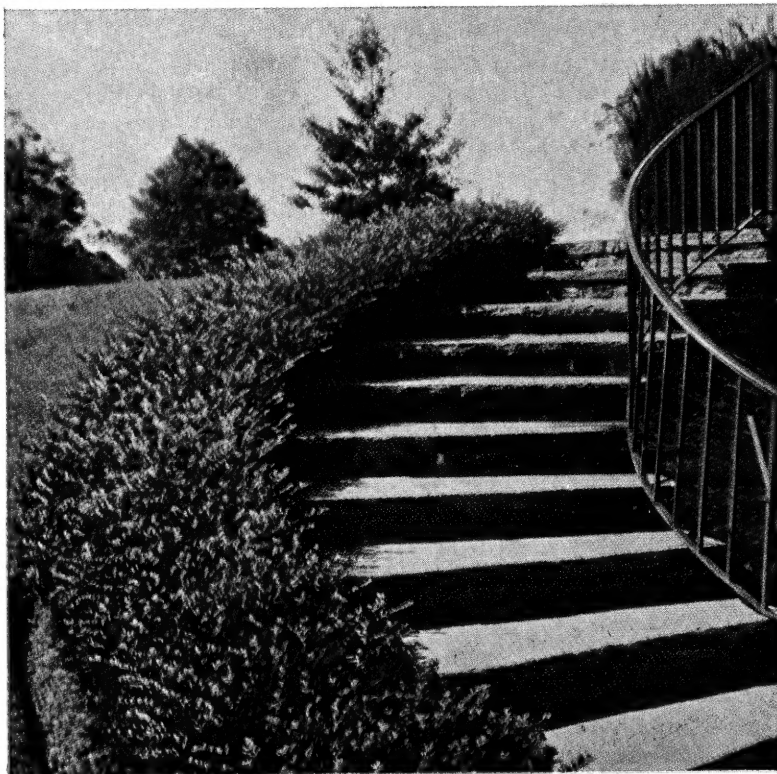

Perfectly hardy here in the North. Darker green than the *T. canadensis*, looks somewhat like the Japanese Upright Yew. Ideal for foundation plantings or screening.

18 to 24 in. ... Ea. \$6.00	2 to 2½ ft. Ea. \$9.00
3½ to 4 ft. Ea. \$15.00	

Tsuga canadensis

• **PRICES SUBJECT TO CHANGE WITHOUT NOTICE** •

***Ilex bullata* is a fine hedge plant**

EVERGREEN HEDGING PLANTS

Hedging is an important part of landscaping your home grounds. If properly used, formal or informal results can be achieved.

Taxus

YEW

The best of the evergreens for hedges. Heavy shearing tends to make them thicker and their rich green color makes them outstanding in your garden. A good dwarf variety that will stay very low is *Taxus brevifolia*. (See page 8.)

Ilex

HOLLY

Any of the Hollies can be used for hedges with great success. Their glossy, dark green foliage and black or red berries are attractive the year round. *Ilex bullata* (Boxleaf Holly) is one of the best for a low hedge. (See page 18.)

Berberis julianae

WINTERGREEN BARBERRY

Here is a broadleaf evergreen that is truly showy all year round. Yellow flowers in the Spring followed by blue fruits. In the Fall some of the leaves turn a brilliant red. Its prickly branches keep out animals. (See page 16.)

FLOWERING SHRUBS

A garden is not complete without Flowering Shrubs. They vary so, in color and size, that no matter what the dimensions of your garden, you will find them indispensable. If the proper selections are made you can have bloom for most of the growing season and then a brilliant display of foliage and berries in the Fall.

Flowering Shrubs can be used in borders, for screening, for flower bed background, or in groups to create eye-catching splashes of color.

Althea

ROSE OF SHARON

This plant is valued mainly for its late flowering habit. The large flowers, single and double, come in a wide range of colors late in July and August.

2 to 3 ft. \$1.50; B&B, \$2.50

Berberis thunbergii

JAPANESE BARBERRY

Thorny shrubs planted mainly as a hedge. Because of its thorny and thick growth it is ideal for keeping animals out. Grows well in shade, bears red berries. Green leaves that turn brilliant red in the fall.

18 to 24 in. Ea. 55c., per 100 \$45.00

B. thunbergii atropurpurea

REDLEAF BARBERRY

Same as above except stays a brilliant coppery red all season. Will grow in shade but sun brings out the color.

18 to 24 in. Ea. 85c., per 100 \$75.00

Buddleia • BUTTERFLY BUSH

An excellent plant growing to a height of 5 to 6 ft., blooming in late Summer and Autumn. Because the flowers resemble the Lilacs, it is sometimes referred to as the Summer Lilac. Colors: pink, red, purple and white.

Bare root. Ea. \$1.00 | Potted. Ea. \$1.50

Caryopteris

BLUE MIST

Blue flowers from August to frost.

Container grown. \$2.00

Cornus alba sibirica

REDTWIGGED DOGWOOD

This shrub is showy even in Winter because of its red branches. Bears clusters of white flowers in May and June followed by bluish-gray fruit. Tolerant to wet soil.

3 to 4 ft. Ea. \$1.50

Cydonia Japonica

FLOWERING QUINCE

18 to 24 in. Ea. \$1.75 | 2 to 3 ft. Ea. \$2.00

Deutzia gracilis

SLENDER DEUTZIA

One of the best of the dwarf shrubs, growing low and dense. White flowers borne on gracefully arched branches in June. Ultimate height 3 ft.

18 to 24 in. Ea. \$1.50

D. gracilis rosea

SLENDER DEUTZIA

Same as above except the flowers are pink.

18 to 24 in. Ea. \$1.50

D. scabra, Pride of Rochester

Bright red flowers on spiny branches in April.

A strong, vigorous growing shrub. Double white flowers tinged with pink in June. Ultimate height 8 ft.

3 to 4 ft. Ea. \$1.50; B&B, \$2.50

4 to 5 ft. Ea. 2.50; B&B, 3.50

Enkianthus campanulatus REDVEIN ENKIANTHUS

Very ornamental, tall growing plant with drooping bell-like flowers in May, beautiful red foliage in the Fall. Prefers an acid soil. This is a very desirable shrub but is not too well known.

2 to 3 ft. Ea. \$5.00 | 3 to 4 ft. Ea. \$7.00

Euonymus alatus

WINGED EUONYMUS

Known for its curious corky bark raised in ridges along the stem. This is a strong, vigorous plant that grows quite tall, but can be sheared back.

2 to 3 ft. Ea. \$3.50 | 3 to 4 ft. Ea. \$4.50

E. alatus compactus

DWARF EUONYMUS

A choice compact shrub similar to the one above, but much slower growing. This plant can also be sheared to make it more compact and bushy.

18 to 24 in. Ea. \$2.50 | 2 to 3 ft. Ea. \$3.50

Forsythia • GOLDEN BELL

Among the showiest of Spring flowering shrubs with their yellow flowers appearing before the leaves. Will tolerate adverse conditions.

F. intermedia

BORDER FORSYTHIA

Slender arching branches covered with golden yellow flowers in early Spring. Ultimate height 8 to 10 ft.

2 to 3 ft. Ea. \$1.25 | 3 to 4 ft. Ea. \$2.50

F. intermedia Spring Glory

PRIMROSE FORSYTHIA

A variety of the above, but a heavier bloomer.

2 to 3 ft. Ea. \$1.25 | 3 to 4 ft. Ea. \$2.50

F. Lynwood Gold

LYNWOOD FORSYTHIA

A new upright variety. Profuse flowers of a deeper golden yellow. This is a real choice shrub.

3 to 4 ft. Ea. \$2.75

F. spectabilis

SHOWY BORDER FORSYTHIA

Considered by many as the finest. A strong, upright grower, really spectacular when in bloom. Ultimate height 8 ft.

2 to 3 ft. Ea. \$1.25 | 3 to 4 ft. Ea. \$1.75

F. suspensa

WEEPING FORSYTHIA

A low growing, rambling variety whose branches root as they touch the ground. Used to cover banks and slopes in practically any exposure.

2 to 3 ft. Ea. \$1.25

Hydrangea paniculata grandiflora

PEEGEE HYDRANGEA

An old fashioned shrub that is known to all. Bears tremendous white flowers in the Summer that change to pink in the Fall. Ultimate height 8 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. Ea. \$3.00

4 to 5 ft. Ea. \$5.00

H., Peegee

TREEFORM HYDRANGEA

Same as the above, but grown in tree form with a single trunk. Used as a specimen. Ultimate height 8 ft.

3 to 4 ft. B&B. Ea. \$3.50

HYDRANGEA—Continued**H. arborescens grandiflora SNOWHILL HYDRANGEA**

Pure white cluster of flowers 4 to 5 inches in diameter in June and July when most shrubs are finished blooming. Likes a moist soil and tolerates a little shade. Should be severely pruned in early Spring.

18 to 24 in. Ea. \$1.00 | 2 to 3 ft. Ea. \$2.50

Hypericum prolificum ST. JOHNSWORT

A shrub of stiff dense habit. Brilliant yellow flowers in August and early September. Attractive foliage. Prefers partial shade and a well drained soil. Used in front of taller shrubs. Ultimate height 3 ft.

2 to 3 ft., Potted. Ea. \$2.50

H. densiflorum DENSE ST. JOHNSWORT

Same as the one above, but more dwarf and dense. Ideal for use in front of a low picture window.

2 to 2½ ft. Ea. \$2.00

Ilex verticillata BLACK ALDER

This very ornamental upright shrub belongs to the Holly family. Bright red berries appear in October which last practically all Winter. These berries are used a great deal for Christmas decorations. Prefers a wet situation. Ultimate height 6 to 8 ft. Only dug B&B.

18 to 24 in. Ea. \$1.50 | 2 to 3 ft. Ea. \$2.50
3 to 4 ft. Ea. \$3.50

Kerria japonica floreplena KERRIA

Bears an abundance of golden yellow rose-like double flowers in May and June. Has attractive light green stems. Prefers a slightly shady and well drained location. Ultimate height 6 to 8 ft.

2 to 3 ft. Ea. \$1.75

Kolkwitzia amabilis BEAUTYBUSH

One of the finest among the flowering shrubs. The branches covered with bell-like pink flowers are arched. Will bloom better and better as it grows older. Blooms late May and June.

2 to 3 ft. Ea. \$1.50
3 to 4 ft. Ea. 2.00
4 to 5 ft. Ea. 4.00

Lindera benzoin SPICEBUSH

A native of our eastern states and does well in a moist, half-shade condition. Bright yellow flowers appear in early Spring before the leaves come out. Red berries are borne in the Fall that are much sought after by birds. Leaves and twigs are aromatic.

2 to 3 ft. Ea. \$1.50

HONEYSUCKLE

Among the easiest shrubs to grow as they do well in any soil and exposure. Valuable for screening or specimen. Birds love this plant for nesting and feed on its red berries.

Lonicera fragrantissima WINTER HONEYSUCKLE

Hardy, half-evergreen shrub with shiny, leathery leaves. Small, scented white flowers in early Spring. Ultimate height 8 ft.

2 to 3 ft. Ea. \$1.50

L. tatarica alba BUSH HONEYSUCKLE

Bears a profusion of yellow and white flowers in May, followed by red fruits. Will tolerate some shade. Ultimate height 8 to 10 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. Ea. \$1.75

L. tatarica zabeli RED BUSH HONEYSUCKLE

Same growth habit as above but with a bright red flower not quite as fragrant. Ultimate height 8 to 10 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. Ea. \$1.75

Prunus Amygdalus FLOWERING ALMOND

Little double flowers along the branches as leaves open.

2 to 3 ft. Ea. \$1.75

Philadelphus • MOCK-ORANGE

This shrub is a must in every garden. The white flowers are very fragrant and remind one of orange blossoms. Ideal for the shrub border or as a specimen. Will tolerate a good deal of shade but likes a well drained soil.

P. coronarius SWEET MOCK-ORANGE

This is the single old fashioned Mock-orange (syringa). The creamy-white flowers appear in June and are very fragrant. Ultimate height 8 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. Ea. \$2.00

P. coronarius, Minnesota Snowflake. (Plant Pat. No. 538)

This is a new variety to the Mock-orange family. The plant is more upright than the above but has large, fully double pure white scented flowers. Ultimate height 6 to 8 ft.

4 to 5 ft. B&B. Ea. \$3.75

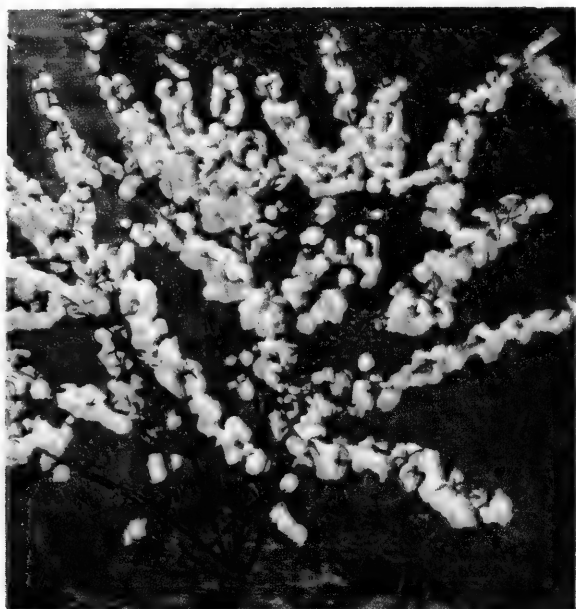

P. virginialis DOUBLE MOCK-ORANGE

Of irregular growth, but rated by many as the finest. The large semi-double white flowers first appear in June and then bloom intermittently through the Summer.

18 to 24 in. Ea. \$1.00 | 2 to 3 ft. Ea. \$1.50
4 to 5 ft. Ea. \$3.50

An attractive planting invites you to step inside

**Flowering Almond**

SPIREAS

A large group of medium sized shrubs, usually very fine and delicate, prefer a sunny location.

S. Anthony Waterer **DWARF SPIREA**

A low growing, late flowering shrub of dwarf compact growth habit. Clusters of large pink flowers in the Summer. Ultimate height 3 ft.

15 to 18 in.Ea. \$0.90 | 18 to 24 in.Ea. \$1.25

S. prunifolia **TRUE BRIDALWREATH**

The earliest blooming. Tiny double white flowers along the stems causing them to arch. The small shiny leaves turn a bronze color in the Fall. Ultimate height 6 ft.

18 to 24 in.Ea. \$0.75 | 2 to 3 ft.Ea. \$1.25
3 to 4 ft.Ea. \$1.75

S. thunbergii **THUNBERG SPIREA**

Early blooming with tiny white flowers. Neat feathery foliage with a rather spreading habit. Ultimate height 4 ft.

18 to 24 in.Ea. \$0.75 | 2 to 3 ft.Ea. \$2.00

S. vanhouttei **VANHOUTTE SPIREA**

This is the most popular of all the Spireas. The branches bend under the heavy load of white flowers in late May. Ideal for a flowering hedge or mass plantings. Ultimate height 5 to 6 ft.

2 to 3 ft.Ea. \$1.00 | 3 to 4 ft.Ea. \$2.00

LILACS

Syringa

LILACS

Lilacs are among the most prized of all flowering shrubs. Effective as specimens, screenings or as back ground for other plants. They are all hardy and come in a variety of types and colors. They all like an alkaline soil.

Common Lilacs

Syringa vulgaris **COMMON PURPLE LILACS**

Highly scented and the best known Lilac all over the world.

3 to 4 ft.Ea. \$2.50

S. vulgaris alba **COMMON WHITE LILAC**

Same plant as above with white flowers.

3 to 4 ft.Ea. \$2.50

Larger sizes priced upon selection

French Hybrid Lilacs

Alphonse Lavallee. Double flowers, sky blue.

Belle de Nancy. Double rose.

General Pershing. Double light blue.

Macrostachya. Single light pink.

Michel Buchner. Double pink.

Mme. Abel Chatenay. Double yellowish-white.

Monge. Single deep purple.

Paul Thirion. Double red.

President Grevy. Double violet.

President Viger. Double blue.

18 to 24 in.Ea. \$2.50 | 3 to 4 ft.Ea. \$5.00
2 to 3 ft.Ea. 3.50 | 4 to 4½ ft.Ea. 7.50

SYMPHORICARPOS

These shrubs do well in either sun or shade and are not particular as to soil. Grown mainly for their berries and ground covering abilities.

Symphoricarpos racemosus **SNOWBERRY**

Small pink flowers followed by large white fruit that persists all Winter. Fairly large leaf. Ultimate height 5 to 6 ft.

2 to 3 ft.Ea. \$1.50

S. vulgaris **CORALBERRY**

Arching branches which carry the small red berries in profusion. Branches will root where they touch the ground. Smaller leaf than above. Height ultimately 4 to 5 ft.

2 to 3 ft.Ea. \$1.50

Tamarix africana **AFRICAN TAMARIX**

Noted for its fine feathery foliage and pink flowers in June. Prefers a dry sunny location. Ultimate height 15 ft.

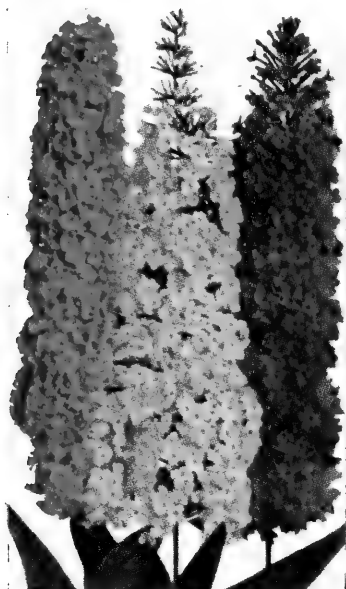

2 to 3 ft.Ea. \$1.50 | 3 to 4 ft.Ea. \$2.50

Vaccinium corymbosum **NATIVE BLUEBERRY**

This is our native Blueberry. Tiny white flowers in the Spring followed by blue edible fruits in the Fall which attract birds. Foliage turns a brilliant red in the Fall. Ultimate height 6 to 7 ft.

2 to 3 ft.Ea. \$3.50 | 3 to 4 ft.Ea. \$5.00

**Double French Lilac**

Butterfly Bush

Mock-Orange

Ilex verticillata

VIBURNUMS

The Viburnums are among the most useful and interesting of all the flowering shrubs. There is a variety to fit every landscape need. They prefer a moist soil but will adapt themselves to most conditions. They all have striking Fall foliage and most bear fruit, which is eagerly sought by birds.

Viburnum carlesii

FRAGRANT VIBURNUM

A real handsome shrub. Very fragrant cluster of pinkish white flowers in early Spring followed by blue fruit in the Fall. Should have plenty of moisture. Ultimate height 5 to 6 ft.

15 to 18 in.....Ea. \$4.25

18 to 24 in.....Ea. \$5.50

2 to 2½ ft.....Ea. \$7.50

V. carlcephalum (Plant Pat. No. 776) NEW FRAGRANT VIBURNUM

This is the new and splendid hybrid from *V. carlesii* and *V. macrocephalum* which originated in England. It is absolutely hardy and not too particular as to soil. The pinkish-white flowers are 4 to 6 ins. across and very fragrant. Ultimate height 6 to 7 ft.

18 to 24 in.....Ea. \$6.00

V. dentatum

ARROWWOOD

Showy white clusters of flowers in May and June with blue-black berries in the Fall. Ultimate height 10 to 12 ft.

4 to 5 ft.....Ea. \$3.50

5 to 6 ft.....Ea. 5.50

V. dilatatum

LINDEN VIBURNUM

Large white flowers followed by clusters of red berries. Ultimate height 10 to 12 ft.

2 to 3 ft.....Ea. \$1.50

3 to 4 ft.....Ea. \$2.50

V. opulus

EUROPEAN CRANBERRYBUSH

A large spreading shrub, with tremendous large clusters of red berries in the Fall. More spreading than the above. Ultimate height 10 to 12 ft.

2 to 3 ft.....Ea. \$1.50

3 to 4 ft.....Ea. \$2.00

4 to 5 ft.....Ea. \$3.00

V. opulus sterile

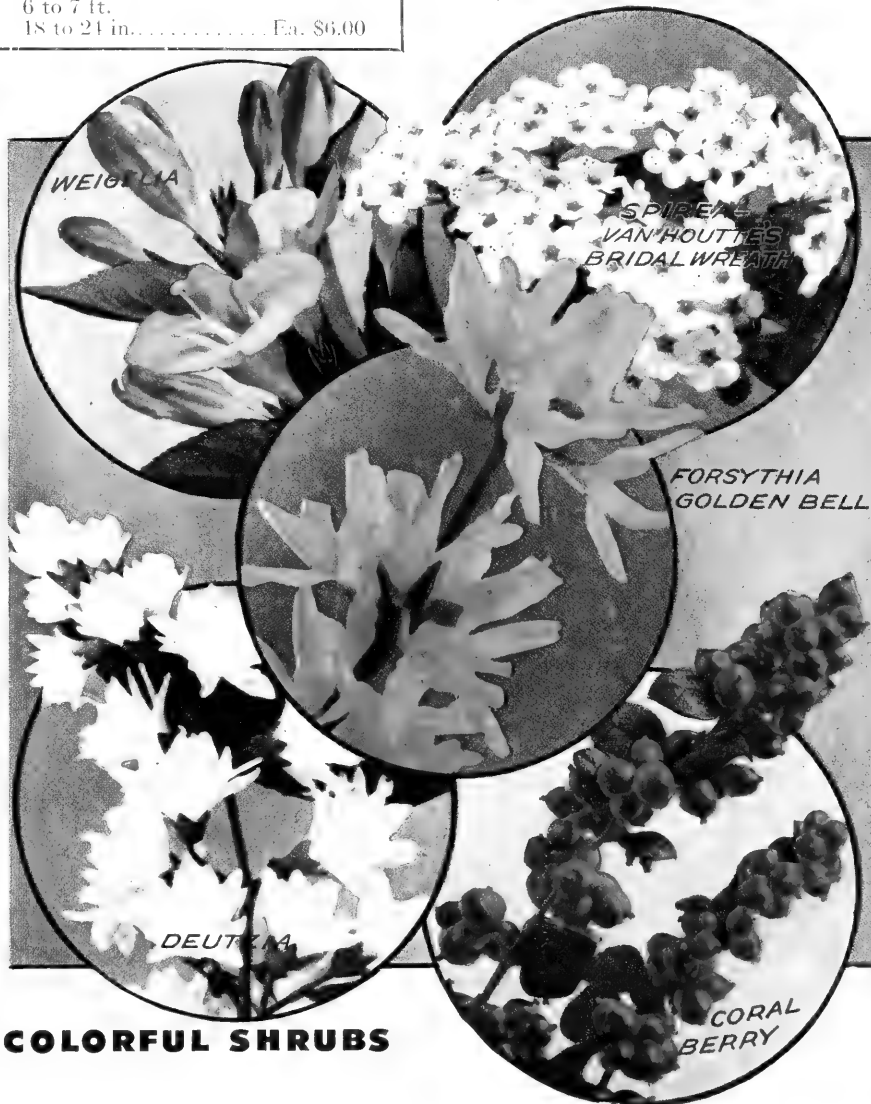

COMMON SNOWBALL

Snowball shaped clusters of white flowers in May. Because the plant is sterile it does not bear any fruit. Ultimate height 8 to 10 ft.

18 to 24 in.....Ea. \$1.00

2 to 3 ft.....Ea. 1.75

3 to 4 ft.....Ea. 2.75

COLORFUL SHRUBS

VIBURNUMS — Continued**V. rhytidophyllum** **LEATHERLEAF VIBURNUM**

This is an **evergreen** Viburnum with long narrow leathery leaves. Has clusters of white flowers and is a rather slow grower. Ultimate height 6 to 7 ft.

2 to 3 ft. Ea. \$6.50

V. tomentosum **JAPANESE SNOWBALL**

A large spreading shrub with clusters of white flowers in the Spring followed by red fruit in the Fall. Ultimate height 10 to 12 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. B&B... Ea. \$3.50

3 to 4 ft. Ea. 2.75 | 4 to 5 ft. B&B... Ea. 5.00

V. theiferum **TEA VIBURNUM**

A neat upright plant. White flowers and bright red berries that stay on into the Winter. Very showy when in fruit. Ultimate height 7 to 8 ft.

2 to 3 ft. Ea. \$1.75 | 3 to 4 ft. Ea. \$2.50

4 to 5 ft. Ea. \$3.50

WEIGELAS

Very good shrubs for screening or specimens. Has beautiful bell-like flowers that appear in May and June. Will grow in most any soil.

Weigela Bristol Ruby

Most profuse flowering of the Weigelas. Flowers are deep red, blooms in June and then again in the Fall. Has heavy, dense foliage. Ultimate height 8 ft.

2 to 3 ft. Ea. \$2.00 | 3 to 4 ft. Ea. \$3.50

W. Eva Rathke

Very popular with its brilliant red flowers and white stamens. Blooms off and on all Summer. This is a low spreading form. Ultimate height 5 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. Ea. \$2.50

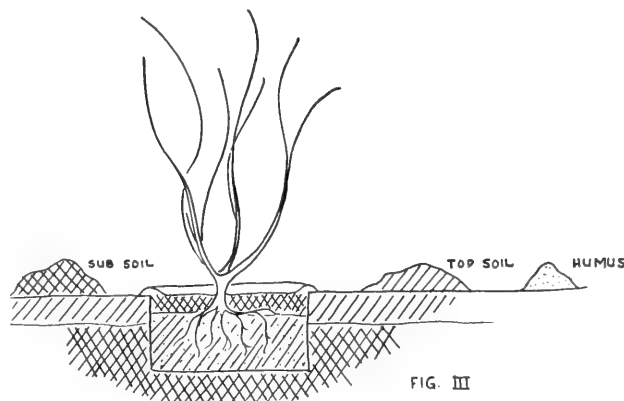

**Planting Instructions for Bare Root Material**

Figure III

1. Hole is dug large enough to house roots when spread out, keeping top soil and sub soil separate.
2. Plant is faced and centered in hole.
3. While plant is held upright and at proper depth an inch or two deeper than it grew in nursery, top soil and humus is worked in around roots. Soil should be firmed several times before hole is filled.
4. Finish off with sub soil on top leaving a ring of soil above ground to hold moisture around plant. Water deeply twice a week.

W. rosea

This is an old favorite, medium to tall growing shrub covered in June with a profusion of rose colored flowers. Ultimate height 6 to 8 ft.

2 to 3 ft. Ea. \$1.50 | 3 to 4 ft. Ea. \$2.50

4 to 5 ft. Ea. \$3.50

DECIDUOUS HEDGE PLANTS**BERBERIS thunbergi***Hedge Barberry*

Common green Barberry, brilliant red berries in Fall.

18 to 24 in. Ea. 55c., \$45.00 per 100

B. thunbergi atropurpurea*Redleaf Barberry*

This plant is purple red in the Summer and brilliant scarlet in the Fall. Red berries.

18 to 24 in. Ea. 75c., \$65.00 per 100

SPIREA vanhouttei*Vanboute Spirea*

This makes a beautiful, dense hedge. 5 to 6 ft. tall, loaded with white flowers in Spring.

2 to 3 ft. Ea. \$1.00

LIGUSTRUM ovalifolium*California Privet*

Common form of hedge that can be kept sheared low or allowed to grow for a screening. Leaves stay on way into December.

18 to 24 in. Ea. 20c., \$18.00 per 100

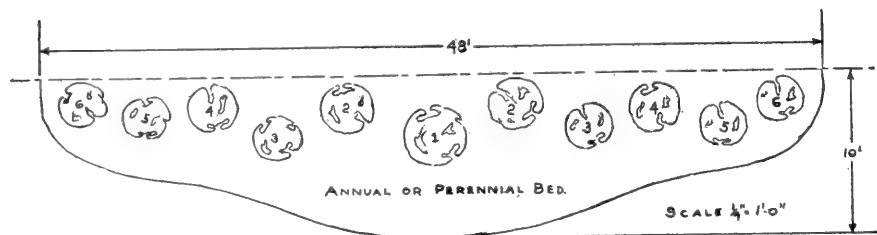

2 to 3 ft. Ea. 30c., \$25.00 per 100

3 to 4 ft. Ea. 40c., \$35.00 per 100

L. regelianum*Regel Privet*

A low spreading form of Privet. Bears an abundance of black berries.

2 to 3 ft. Ea. \$1.00

SPECIAL SHRUB COLLECTIONS**for this SPRING Only**

Here is a plan showing what can be done with Flowering Shrubs for very little money. Shrubs can be used for a screening, background, or to mark your property line.

By choosing the right varieties, a better selection of color and longer period of bloom can be attained.

This plan can be applied to either a sunny location or to one of part shade.

These plants are all 2 to 4 feet tall, bushy and ready to bloom.

Price, either of the two groups at left (11 plants)—\$12.50

BROADLEAVED EVERGREENS

EVERGREEN AZALEAS

Azalea amoena (Kurume)

The purplish-red flowers shade darker towards the center. Hose-in-hose variety. Foliage is small, dark glossy green. Plants are compact and bushy.

10 to 12 in. Ea. \$2.50 | 15 to 18 in. Ea. \$4.50
18 to 24 in. Ea. \$7.50

A. Coral Bell (Kurume)

Coral-pink, shaded deeper in the center, medium-sized hose-in-hose flowers profusely produced. The plants have small, round, glossy foliage.

8 to 10 in. Ea. \$2.00 | 10 to 12 in. Ea. \$2.75
12 to 15 in. Ea. \$4.00

A. hinodegiri (Kurume)

Glowing rosy-scarlet flowers. This is one of the most brilliant of all the dwarf Azaleas and is a very profuse bloomer over a long period. Foliage turns bronzy-red in the Fall.

4 to 6 in. Ea. \$1.00 | 12 to 15 in. Ea. \$3.75
6 to 8 in. Ea. 1.50 | 15 to 18 in. Ea. 5.00
8 to 10 in. Ea. 2.00 | 18 to 24 in. Ea. 7.50
10 to 12 in. Ea. 2.50 | 2 to 2½ ft. Ea. 15.00
2½ to 3 ft. Ea. \$27.50

A. indica alba

Large white single flowers. Leaves are comparatively large and slightly hairy. Grows taller than the Kurume Hybrids. Semi-evergreen.

10 to 12 in. Ea. \$2.00 | 15 to 18 in. Ea. \$5.00
12 to 15 in. Ea. 3.50 | 18 to 24 in. Ea. 7.00

A. kaempferi

TORCH AZALEA

Salmon-pink flowers. One of the most popular and colorful Azaleas. They are vigorous growers and flower profusely in May. Tall growing.

12 to 15 in. Ea. \$3.50 | 18 to 24 in. Ea. \$6.50
15 to 18 in. Ea. 4.50 | 2 to 2½ ft. Ea. 7.50

A. kaempferi

TORCH AZALEA

Same as above except the flowers are brilliant red.

12 to 15 in. Ea. \$3.50 | 15 to 18 in. Ea. \$4.50

A. ledifolia alba

Very large, pure white flowers. Vigorous, profuse-blooming plants. One of the hardiest of this family. Slightly fragrant.

12 to 15 in. Ea. \$4.50

A. Sweet Briar (Kurume)

Beautiful pink flowers, slightly fragrant. Small shiny leaves, very compact.

8 to 10 in. Ea. \$2.00 | 10 to 12 in. Ea. \$2.75
12 to 15 in. Ea. \$4.50

A. Pink Pearl (Kurume)

Flowers of a lovely shade of salmon-rose shaded lighter in the center. Blooms in quite large clusters.

10 to 12 in. Ea. \$2.50 | 15 to 18 in. Ea. \$5.50

A. Snow (Kurume)

Large, pure white flowers borne profusely in good-sized clusters. Beautiful glossy green foliage, on the dwarf side.

4 to 6 in. Ea. \$1.00 | 10 to 12 in. Ea. \$2.50

Broad-leaf planting on shady slope for easy maintenance

DECIDUOUS AZALEAS

For your further Azalea enjoyment we have listed below several deciduous types. These are just as beautiful and useful as the evergreen varieties. They are extremely hardy and blend well with Mountain Laurel and Rhododendrons.

Azalea arborescens **SWEET AZALEA**

Bushy shrub. Large white blooms, sometimes tinged with pink, with exquisite fragrance in June and July.

18 to 24 in.....Ea. \$3.50 | 2 to 3 ft.....Ea. \$5.00

A. calendulacea **FLAME AZALEA**

One of the gayest and most brilliant, with flowers of orange and yellow or flame red in early June. Attractive foliage in the Autumn.

18 to 24 in.....Ea. \$4.50 | 2½ to 3 ft.....Ea. \$7.75
2 to 2½ ft.....Ea. 5.75 | 3 to 4 ft.....Ea. 9.75
4 to 5 ft.....Ea. \$12.00

A. mollis **CHINESE AZALEA**

One of the hardiest Azaleas producing large flowers. The colors range from orange to red.

10 to 12 in.....Ea. \$2.50 | 12 to 15 in.....Ea. \$3.00
15 to 18 in.....Ea. \$4.50

A. mucronulata

Wonderful to plant in front of Forsythia because they bloom at the same time. The color is lavender which together with the yellow Forsythia makes it very striking.

18 to 24 in.....Ea. \$6.00 | 2 to 3 ft.....Ea. \$7.50

A. nudiflora **PINXTERBLOOM**

Native woods Azalea, sometimes called Wild Honeysuckle. Early in Spring it produces a great profusion of fragrant rosy-pink blooms.

2 to 3 ft.....Ea. \$4.00

A. poukhanense

Very hardy Azalea, low and bushy, leaves turn red in Fall. Flowers are lavender and very large.

10 to 12 in.....Ea. \$3.75 | 15 to 18 in.....Ea. \$4.50

A. vaseyi **PINKSHELL AZALEA**

Handsome, hardy species, native of the Carolina Mountains. Clusters of dainty, clear pink, orchid-like flowers in early Spring. Prefers a moist, shady soil.

2 to 2½ ft.....Ea. \$5.50

Azalea mollis

Abelia

ABELIA

Abelia grandiflora

GLOSSY ABELIA

A wonderful semi-evergreen plant for foundation or mass planting, thrives in sun or shade. The foliage is dark green and very shiny, turning to deep bronze after frost. Flowers are small, pink and bell-shaped and are effective from August till frost.

5 in. pots.....Ea. \$1.50 | 2 to 3 ft.....Ea. \$4.00
3 to 4 ft.....Ea. \$5.50

BARBERRY

Berberis julianae

WINTERGREEN BARBERRY

Absolutely hardy evergreen Barberry. Very thorny with dark green foliage turning to red in the Fall and small yellow flowers in Spring followed by blue berries. Good for foundation planting or hedge.

15 to 18 in.....Ea. \$4.00 | 2 to 2½ ft.....Ea. \$8.00
18 to 24 in.....Ea. 6.00 | 2½ to 3 ft.....Ea. 12.00

B. verruculosa

WARTY BARBERRY

Low, dwarf, evergreen Barberry. Ideal for rock garden or fill-in plant in foundation. The dark green leaf is silvery underneath and turn red in the Fall.

12 to 15 in. heavy.....Ea. \$4.50

Azalea hinodegiri

BUXUS

Buxus canadensis

HARDY BOXWOOD

This plant is very hardy and will grow where the more tender English box will Winter-kill, even as far north as Canada. It can be left to grow naturally or clipped to any desired shape. The leaves are blue-green and very tiny.

12 to 15 in. Ea. \$3.50

COTONEASTERS

Cotoneaster horizontalis

ROCK COTONEASTER

A low semi-evergreen shrub with horizontal branching and small glossy green leaves. The flowers are pinkish white and the fruit bright red. Ideal for rock garden or dry banks.

12 to 15 in. (container) Ea. \$2.75

15 to 18 in. B&B Ea. \$5.00

C. francheti

Tall growing dense shrub, irregular growth habit, gray-green foliage in Summer turning slightly bronze in the Fall. Small pink flowers in June followed by bright orange berries in the Fall. Ideal for informal plantings or dry slopes.

18 to 24 in. (container) .. Ea. \$4.50 | 2 to 2½ ft. (container) . Ea. \$6.50

C. henryana

About the same growth habit as *C. francheti* but with longer leaves that color up more brilliantly. Berries are deeper orange.

18 to 24 in. (container) .. Ea. \$4.50 | 2 to 2½ ft. (container) .. Ea. \$6.50

C. praecox

Quite similar to *C. horizontalis*. Low growing semi-evergreen shrub. Slightly larger leaves and a much heavier crop of darker red berries.

8 to 12 in. Ea. \$2.50 | 18 to 24 in. Ea. \$ 6.00

15 to 18 in. Ea. 3.50 | 2½ to 3 ft. Ea. 12.50

C. divaricata

This is an upright semi-evergreen variety with leaves and berries similar to *C. horizontalis*. Use in a hedge or as clipped specimen.

2 to 2½ ft. (container) Ea. \$3.25

DAPHNE

Daphne cneorum

ROSE DAPHNE

A dwarf, bushy evergreen plant of spreading habit, growing 8 to 12 ins. high. It produces delicately perfumed, rose-pink flowers in May and June and then again in September. Grows well in part shade or full sun in a well-drained, poor soil.

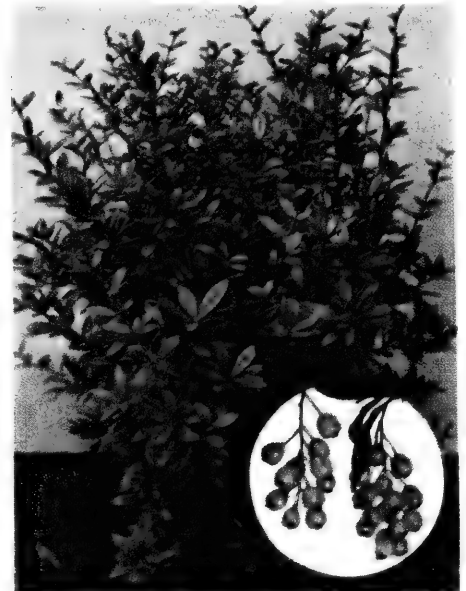

8 to 10 in. Ea. \$2.25 | 12 to 15 in. Ea. \$3.00

Daphne cneorum

Pieris japonica (Japanese Andromeda)

Berberis julianae

Pyracantha (Firethorn)

THE HOLLIES

The Hollies (*Ilex*) are among the most adaptable and versatile of all our evergreen shrubs. They prefer an acid soil, rich in organic matter. Do not plant in an open place that is exposed to strong winds. These plants will tolerate shade or full sun.

Probably the one that comes to mind first when Hollies are mentioned is the Christmas Holly (*Ilex Opaca*) or American Holly. This plant grows into a small tree but can be sheared and kept as a specimen for use in the foundation planting.

Among the so called Japanese types are many varieties to choose from. They can be used for hedges, specimens or as foundation plants, also the low dwarf types are ideal for rockeries.

Ilex crenata

JAPANESE HOLLY

A rather fast growing evergreen bush with small dark green leaves. Use in foundation, or as a specimen or hedging plant.

15 to 18 in.....Ea. \$4.00	2½ to 3 ft.....Ea. \$12.00
18 to 24 in.....Ea. 6.50	3 to 3½ ft.....Ea. 15.00
2 to 2½ ft.....Ea. 8.00	3½ to 4 ft.....Ea. 20.00

I. crenata bullata

CONVEXLEAF HOLLY

This plant resembles the Boxwood and is used where temperatures get too low for the latter to thrive. The leaves are small, very shiny, convex and bears a heavy crop of black shiny berries. This plant is ideal for low formal hedges as it can be clipped like a Boxwood. Also good for fill-ins in the foundation planting and perfect for the rockery.

10 to 12 in.....Ea. \$3.00	15 to 18 in.....Ea. \$6.00
12 to 15 in.....Ea. 4.00	18 to 24 in.....Ea. 7.50

I. crenata rotundifolia

ROUNDLEAF HOLLY

Quite similar to the *Ilex crenata*. The leaf is slightly larger and darker in color and grows perhaps a little faster. Wherever this plant is used it is outstanding.

18 to 24 in.....Ea. \$6.50
2 to 2½ ft.....Ea. 8.00
2½ to 3 ft.....Ea. 12.00
3 to 3½ ft...Ea. \$15.00 to \$18.00

I. crenata microphylla

SMALL-LEAF HOLLY

This has a very small leaf and grows a little slower and bushier than the *Ilex crenata*. Because of its fine texture do not plant too close to Rhododendrons.

2 to 2½ ft.....Ea. \$10.00
2½ to 3 ft.....Ea. 14.00

I. crenata Green Island

(Plant Pat. No. 817)

GREEN ISLAND HOLLY

This is a new variety just recently introduced. It is lower growing than the *I. bullata* and hardly requires any shearing, the leaf is flat. A hardy little shrub that fits into all modern plantings.

15 to 18 in.....Ea. \$6.00
18 to 24 in.....Ea. 8.50
24 to 30 in.....Ea. 10.00

I. glabra

INKBERRY

This is a loose, spreading, evergreen shrub, 4 to 5 ft. at maturity, with shining dark green leaves and an abundance of glittering black berries through the Winter. Excellent plant for the seashore.

12 to 15 in.....Ea. \$3.25	18 to 24 in.....Ea. \$5.00
15 to 18 in.....Ea. 4.00	2 to 2½ ft.....Ea. 7.00

I. opaca

AMERICAN HOLLY

This is the well known Christmas Holly. The plant has a spiny dark green leaf and bears dark red berries that persist all Winter.

The American Holly grows into a fairly large tree but can be kept under control with shearing. Grow in a slightly protected spot.

18 to 24 in.....Ea. \$6.00	3 to 4 ft.....Ea. \$14.00
2 to 2½ ft.....Ea. 8.00	4 to 5 ft.....Ea. 18.00
2½ to 3 ft.....Ea. 12.00	5 to 6 ft.....Ea. 22.00

A simple planting for the outdoor living room

HOLLIES—Continued**I. opaca Arden****ARDEN AMERICAN HOLLY**

The same growth habit as the American Holly. The leaves turn slightly bronze in the Fall and the berries are deeper red. We have only a limited amount.

3 to 4 ft. Ea. \$14.00 | 4 to 5 ft. Ea. \$18.00

I. Stokes (Plant Pat. No. 887)**STOKES HOLLY**

The latest introduction out. A very dwarf low growing Holly and tiny leaves. Requires no shearing whatsoever. Ideal for low formal hedges, rock gardens and foundation plantings.

6 to 8 in. Ea. \$1.75 | 8 to 10 in. Ea. \$3.00

MOUNTAIN LAUREL

Kalmia latifolia**MOUNTAIN LAUREL**

A bushy evergreen shrub that blooms profusely in May and early June, producing large clusters of white to deep-pink flowers. Prefers a very light shade but does well in the open if properly planted and mulched, must have an acid soil. Fine for foundation plantings. Banked in front of Rhododendrons or used in combination with Azaleas.

12 to 15 in. Ea. \$2.00 | 2 to 2½ ft. Ea. \$5.00

15 to 18 in. Ea. 2.75 | 2½ to 3 ft. Ea. 7.00

18 to 24 in. Ea. 3.75 | 3 to 3½ ft. Ea. 12.00

ANDROMEDA

Pieris floribunda**MOUNTAIN ANDROMEDA**

Low, dense growing shrub with small, light green leaves. The flower buds are formed in the Fall and in early Spring produce an abundance of white flowers resembling Lily-of-the-Valley. Prefers part shade and an acid soil.

15 to 18 in. Ea. \$5.50 | 18 to 24 in. Ea. \$6.50

P. japonica**JAPANESE ANDROMEDA**

One of the most graceful early flowering evergreen shrubs, with attractive, glossy, dark-green foliage. The drooping white clusters of flowers are slightly fragrant. The plant looks as if it blooms again when the new orange to red growth comes out. In the Fall it turns a dark bronze. Will grow 6 or 8 ft. but can be kept down with pruning. Plant in part shade or protected spot in acid soil.

10 to 12 in. Ea. \$2.50 | 18 to 24 in. Ea. \$6.50

12 to 15 in. Ea. 3.75 | 2 to 2½ ft. Ea. 8.00

15 to 18 in. Ea. 4.50 | 2½ to 3 ft. Ea. 12.00

FIRETHORN

Pyracantha coccinea lalandi**FIRETHORN**

Use as an espalier on a wall or fence. The canes grow from the ground so they can easily be espaliered on a flat surface. This hardy evergreen bears clusters of white flowers followed by tremendous clusters of orange-red berries that persist far into Winter. Grows in either sun or shade and is not particular as to soil.

15 to 18 in. (container) Ea. \$3.00

18 to 24 in. (container) Ea. 5.00

2 to 2½ ft. (container) Ea. 6.50

Cotoneaster used as low hedge is very effective

LEUCOTHOE

Leucothoe catesbaei**DROOPING LEUCOTHOE**

Beautiful dwarf shrub for either sun or shade (will grow more lush in shade or part shade). White, bell-shaped flowers cover the drooping branches in early Spring. The foliage turns bronze to red in the Fall making this an outstanding and attractive plant. Branches cut for floral arrangements last for weeks and the cutting improves the plant.

12 to 15 in. Ea. \$3.50 | 15 to 18 in. Ea. \$4.50

18 to 24 in. Ea. \$5.50

EUONYMUS CORLISSI

A Brand New Variety Just Out

Requires no staking, little shearing and highly disease resistant—will tolerate drought and low temperatures. These plants make wonderful hedges or use them in the foundation planting or as specimen shrubs.

E. Emerald Charm—Plant Pat. No. 1079.

EUONYMUS COLUMNAR

E. Emerald Cushion—Plant Pat. No. 1112.

EUONYMUS DWARF SHRUB

E. Emerald Pride—Plant Pat. No. 1073.

EUONYMUS TRUESHRUB

B&B, Heavy Plants, Ea. \$4.00

Green Valley grown means Quality

RHODODENDRONS

Truly there is no evergreen shrub to equal the aristocratic Rhododendron. Depending on variety the plants are covered with tremendous blooms, in all colors, from early May to June. The large glossy leaves give them an exotic look. The hybrid varieties prefer a sunny to a light shady situation, whereas the native types prefer a light to heavy shade. They all must have an acid soil with plenty of moisture, but not wet feet. A heavy mulch of rotted oak leaves or peat moss is most beneficial. They are most effective when planted in groups.

Rhododendron carolinianum

CAROLINA RHODODENDRON

The leaves are small and narrow, dark green above and reddish underneath; the young twigs are also red. Clusters of rose-pink flowers appear in early May. Fairly low-growing so is ideal for planting in front of taller varieties. This is a native variety.

18 to 24 in. Ea. \$5.50 | 2 to 2½ ft. Ea. \$7.00

R. catawbiense

CATAWBA RHODODENDRON

The most beautiful of our native Rhododendron. It is a prolific bloomer with flowers produced in very large, round trusses of various shades of lavender and pink. It has about the same shape foliage as the hybrid types.

15 to 18 in. Ea. \$4.00 | 2 to 2½ ft. Ea. \$7.00
18 to 24 in. Ea. 5.50 | 2½ to 3 ft. Ea. 9.00

R. maximum

ROSEBAY RHODODENDRON

The foliage is very large, smooth and thick. Growing taller than most varieties, it is used mainly as a background or screening plant where other shrubs won't grow because of deep shade. The flowers are pale pink and appear in late June. This plant needs plenty of moisture.

15 to 18 in. Ea. \$3.00 | 2½ to 3 ft. Ea. \$6.50
18 to 24 in. Ea. 4.00 | 3 to 3½ ft. Ea. 7.50
2 to 2½ ft. Ea. 5.00 | 3½ to 4 ft. Ea. 9.00
4 to 5 ft. Ea. \$12.00 to \$15.00
5 to 6 ft. Ea. 15.00 to 20.00

Rhododendron

You will get a wide range of colors in our hardy Rhododendrons

RHODODENDRON—Hybrids

15 to 18 in. Ea. \$8.00

18 to 24 in. Ea. 14.00

Dr. H. C. Dresselhuys

Deep crimson bloom of very large size. The best in the reds.

Boule de Neige

Pure white flowers on an upright, strong growing plant.

Mrs. C. S. Sargent

Deep pink flowers of good size. A strong grower and very hardy.

Roseum Elegans

Brilliant rose-pink flowers, good clean foliage. An outstanding hybrid.

Mountain Laurel

PERENNIALS

Perennials are the plants which remain in our gardens year after year. To get the greatest satisfaction the perennial border should be planned. With proper planning one can get continuous bloom throughout the season. We carry several hundred varieties and dig them upon your selection.

Ea. 40c. to \$1.50

- AJUGA brockbanki.** 6 in. Dark blue. May-June.
ALYSSUM saxatile. 1 ft. Bright yellow. May.
ANCHUSA myosotidiflora. 12 to 15 in. Light blue. June.
AQUILEGIA, Crimson Star. 2 ft. Red and white. June-July.
 Also **Blue, Mixed Colors.**
ARABIS, Snowcap. 4 to 6 in. Single white. April.
ARMERIA, Bee's Ruby. 9 to 12 in. Carmine. May-June.
ARTEMISIA, Dwarf. 12 in. Silver foliage.

ASTERS (Michaelmas Daisies)

Each 75c., per doz. \$7.50

Lovely Autumn-flowering Perennials, for a real show in the autumn flower border. These plants are perfectly hardy and require very little care. Excellent for cutting.

The Cardinal (New). A profusion of semi-double deep rosy-red flowers on bushy plants 3 ft. tall. Blooms September to frost.

Gay Border Blue. Bright blue flowers from September to frost, on 4 ft. well branched plants.

Blue Symphony. The latest to bloom. Tall, vigorous. Bright silver-blue, semi-double flowers.

Janet McMullen. Soft rose pink, huge flowers. Grows to 4 ft.

Mount Everest. The finest white Aster. Tall growing and sturdy.

Palmyra. Clear pink, tall, strong growing.

Cushion Chrysanthemums

- ASTILBE.** White, pink, red. July-August
AUBRIETA rosea grandiflora. 4 to 6 in. Rose. April-May.
BAPTISIA australis. 3 ft. Blue. May-June.
CAMPANULA persicifolia. 2 to 2½ ft. Blue, white. June-July.
CANTERBURY BELLS. 2 to 3 ft. (Biennial.) Pink, blue, white. June.
CARNATION, Grenadin. 10 in. Red. Summer.
CERASTIUM tomentosum. 6 to 8 in. April.
COREOPSIS verticillata. 1½ ft. Yellow. July-September.
 New Dwarf Type. 4 in. Yellow. Summer.

Hardy Asters

Perennial Border in Midsummer

PERENNIALS—Continued

HARDY CHRYSANTHEMUMS

Each 75c., per doz. \$7.50

- Avalanche.** Early white, very large flowers.
Betty. Pink with rose center, large flowers.
Burgundy. Wine red, double flowers.
Charles Nye. Lemon yellow, double flowers.
Christopher Columbus. Creamy white, large flowers.
Firecracker. Mahogany red, large flowers.
Huntsman. Vivid scarlet orange, 3 in., double flowers.
Joybringer. Salmon rose, large flowers.
Lowell Thomas. Pink.
Mrs. P. S. du Pont. Light pink, double flowers.
Olive Longland. Apricot toned with salmon, 3 in. flowers.
Pat Lehman. Peach pink, tall, decorative.
Polaris. Deep golden yellow, single flowers.
Red Velvet. Crimson, semi-double flowers.
Silverplate. White, large flowers.
Sweetheart. Pink, Daisy type.
Tiffany Rose. Rose pink, single.
Yellow Avalanche. Early yellow, very large flowers.

Cushion Type Mums

- Mahogany Cushion.** Deep red.
Major Cushion. Deep pink.
White Cushion. White.
Yellow Supreme. Bright lemon yellow.

Spoon Types

- Cardinal Spoon.** Red bronze.
Rose Spoon. Rose.
White Spoon.
Yellow Spoon.
Orchid Spoon.

Button and Pompon Types

- Carnival.** Burnt orange, pompon.
Chiquita. Deep lemon, button type.
Early Bronze. Orange bronze, button type.
Pepita. White, button type.
Rosita. Lavender rose, button type.
Shalimar. Creamy white, pompon.
Sweepstake. Lemon yellow, pompon.

DELPHINIUM, Pacific Hybrids

Each 75c., per doz. \$7.50

White, light blue and dark blue. The bloom laden stalks reach up to 5 ft. Blooms Midsummer.

- DIANTHUS allwoodi.** 8 to 10 in. Mixed colors. Summer.
Beatriz. 6 to 8 in. Pink and red. June-October.
Double. 8 to 10 in. White, yellow, red.
DICENTRA eximia. 8 in. Dwarf. Pink. May-September.
Spectabilis. 2 to 3 ft. Deep pink. May-June.
DIGITALIS (Foxglove), Shirley Hybrids. 3 to 4 ft. Pink, white, purple.
DORONICUM caucasicum. 1½ to 2 ft. Yellow. May.

EPIMEDIUM niveum. 9 in. White. May.

FUNKIA undulata media Var. 1 ft. Purple. July-August.

GAILLARDIA grandiflora. 2 to 3 ft. Orange red. Summer.
Goblin. 1 ft. Orange red. Summer.

GEUM, Mrs. Bradshaw. 1½ to 2 ft. Red. Summer.

Orange Queen. 1½ to 2 ft. Orange. Summer.

GYPSOPHILA, Bristol Fairy. 2 to 3 ft. Double white. June-September.

Rosy Veil. Dwarf. Pink.

Hemerocallis**DAY LILIES**

Each 75c., per doz. \$7.50

Bijou. Orange, overcast with deep red. June-July. 2½ ft.

Hyperion. Large soft canary yellow. July-August. 3½ ft.

Mrs. W. H. Wyman. Pale yellow. Late August. 3½ ft.

HEUCHERA, Flambeau. 1 to 1½ ft. Red. June-July.

HOLLYHOCKS, Double. 5 to 6 ft. Pink, white, red, yellow. July-August.

HYPERICUM olympicum. 4 to 6 in. Orange yellow. June-August.

Iberis**CANDYTUFT**

Each 50c., per doz. \$5.00

An ideal evergreen perennial for edging walks and borders.

Little Gem. 6 in. White. April-May.

Snowflake. 9 in. White. April-May.

HARDY LILIES

Each 75c., per dozen \$7.50

Auratum. Gold banded Lily, very fragrant. Excellent for cutting. Yellow bands and reddish markings on waxy white petals. Blooms July and August.

Candidum. North trend, Madonna Lily. One of the loveliest of white Lilies, very fragrant. Plant only 2 in. deep. Blooms in June and July.

Fire King. Orange red with many large, cup-shaped, upright flowers, long lasting. Blooms late June and early July.

Orange Triumph. Strong growing, with upstanding 6 in. blooms of bright orange. 12 to 15 blooms per stem.

Regale. Fragrant white flowers, canary-yellow throat with rosy purple markings on the outside. Blooms in July.

Rubrum Magnificum. Reflexing petals heavily spotted crimson on white ground. Blooms July and August.

Speciosum Magnificum. Rich ruby-carmine, white margin; a good strong color. Plant 6 to 8 in. deep. A late bloomer.

PERENNIALS—Continued

Iris germanica **BEARDED IRIS**
 Each 75c., per doz. \$7.50

Iris are about the hardiest of all perennials. Once planted they require very little care. Blooms from May to June. Height 2 to 3 ft.

Alta California. Yellow.
Crystal Beauty. Pure white.
Ethelwyn Dubuar. Orchid.
Indian Chief. Red.
Jean Cayeux. Yellow.
Ola Kala. Ruffled deep yellow.
Pallida Dalmatica. Lavender blue.

Iris pumila **DWARF IRIS**
 Each 75c., per doz. \$7.50

These are as hardy as the above but very dwarf. Excellent for rock garden.

Excelsa. Early yellow.
Sambo. Early dark purple.
The Bride. Early white.

LAVANDULA vera. 12 to 15 in. Blue. July-August.

LINUM perenne. 1 to 2 ft. Light blue. Summer.

LUPINUS, Russell Hybrids Mixed
 Each 50c., per doz. \$5.00

In this mixture you will find all the gorgeous colors. Blues, pinks, reds, yellows, purples and all the bi-colors. The spikes resemble a closely set, well-rounded column of Sweet Peas. Spikes are 3 to 4 ft. tall. Bloom in June.

NEPETA mussini. 1 to 1½ ft. Lavender. Summer.

Paeonia **PEONIES**
 Each \$1.50

Among the finest of all perennials. Tremendous, fragrant flowers ideal for cutting. Plants grow into large clumps and should be divided every 5 years.

Edulis Superba. Dark pink. Fragrant.
Festiva Maxima. 3 ft. Double white. June.
Karl Rosenfield. 3 ft. Double red. June.

JAPANESE - SINGLE

Aztec. Deep pink.
Prairie Afire. Pink.
Mischief. Pink.

Phlox decussata **GARDEN PHLOX**
 Each 50c., per doz. \$5.00

The hardiest and showiest flower in the garden. Flowers in the hot Summer months on stems up to 3 ft.

Brigadier. Scarlet with orange eye.
Elizabeth Arden. Pink.
Graf Zeppelin. White with pink eye.
Leo Schlageter. 2 to 3 ft. Scarlet-red. July-September.
Mary Louise. 1½ to 2 ft. White. Very large blooms.
Progress. 2 to 2½ ft. Light blue, purple eye.
Salmon Glow. 2 to 2½ ft. Deep salmon.
Sir John Falstaff. Salmon pink.
World Peace. Pure white, large flowers.

Phlox subulata **MOUNTAIN PINKS**
 Each 50c., per doz. \$5.00
 4 to 6 in.

A low groundcover-type-plant that is ideal for rockeries or hot, dry banks. Blooms April and May.

Alba. Pure white.
Blue Hill. Pale blue.
Crimson Beauty. Bright crimson.
Emerald Cushion. Pink.

PHLOX divaricata. 10 in. Light blue. Summer.

PLATYCODON grandiflorum. 2 to 2½ ft. Blue. June-July.

POLEMONIUM reptans. 9 to 12 in. Blue. August-Sept.

PRIMULA veris aurea. Mixed. Spring.

PYRETHRUM, Hybrids. 2 ft. Mixed colors. June-August.

SANTOLINA incana. 12 in. Silvery gray foliage; green foliage.

SEDUM

Album. 4 to 6 in. White. June.
Kamtschaticum. 2 to 3 in. Orange-yellow. June.
Lyidium. 3 to 4 in. Pink. July.
Nevi. 2 to 3 in. White. June.
Rupestre. 4 to 6 in. Yellow. July.
Spectabile. 12 to 15 in. Pink. July.
Spurium. 12 to 15 in. Pink. July-August.

SEMPERVIVUM

Fauconnetti. 1 to 2 in. Pink. July.
Rubrum. 3 in. Rose. July.

SHASTA DAISY, Alaska. 2 to 2½ ft. White. Summer.

STOKESIA cyanea. 12 to 15 in. Lavender pink. June-July.

SWEET-WILLIAM, Newport Pink. 18 in. Salmon pink. June.

Dwarf. 6 to 12 in. Mixed colors. June.

Thymus **THYME**
 Each 50c., per doz. \$5.00

Dwarf-growing, mossy-like perennials with fragrant foliage. Ideal for rockeries, along paths and between steps and flagstones. Thrives in an ordinary well-drained soil. Blooms June and July.

Citriodorus **LEMON THYME**
 This is a yellow leaved Thyme. Very fragrant.

Lanuginosus **WOOLY THYME**
 Woolly foliage with bright pink flowers.

Serpyllum albus **WHITE MT. THYME**
 Dark green foliage with clouds of white flowers.

S. occineus **RED THYME**
 Plants completely covered with brilliant scarlet flowers.

VERONICA

Blue Spire. 2 ft. Blue. July-August.

Incana. 9 in. Blue, silvery foliage. May-June.

Spicata. 3 ft. Blue. July.

True Blue. 12 to 15 in. Bright blue. May-June.

TEUCRIUM chamaedrys. Glossy evergreen foliage resembling dwarf Boxwood, can be used in place of the latter. Ideal for the rock garden or as a low formal hedge up to 12 in. high. Will stand tight shearing. Each 50c., per dozen \$5.00.

FLOWERING TREES

Flowering Trees, like flowering shrubs, are a must in your garden. If your yard is small and limited in size, select one of the smaller growing varieties. Plant them in such a way that you can enjoy their beauty from the house or perhaps from an entrance drive. Planted in front of an evergreen screen also makes a pleasing picture. The flowering tree, like the flowering shrub, puts on an interesting and colorful display from early Spring till late Fall.

DOGWOODS

Cornus florida

WHITE DOGWOOD

This is the finest of our native flowering trees in this area. It's absolutely hardy, pest free and fits into most situations. The large creamy white flowers appear before the leaves come out giving the tree the appearance of a white cloud. In the Fall the leaves turn a bronzy-red. Birds are attracted to the clusters of red berries in the Fall. This tree is ideal for underplanting with Laurel, Azaleas, Pieris, etc.

Redbud

Pink Dogwood

**Mountain Ash**

HAWTHORNS

A small tree or large shrub with white or pink flowers and red berries in the Fall. The plant is very shrubby and covered with spines. Affords excellent cover for birds.

Crataegus cordata

WASHINGTON THORN

Upright tree of medium size; clusters of white flowers. Good for specimen tree or large hedge.

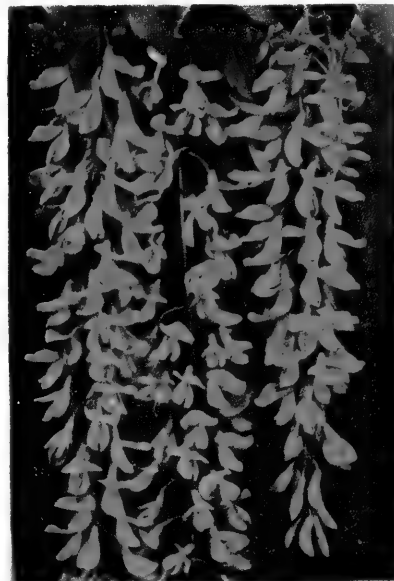

5 to 6 ft., B&B, heavy... Ea. \$15.00

C. oxyacantha pauli

PAUL'S SCARLET THORN

Double scarlet flowers, late Spring. A very choice ornamental tree.

5 to 6 ft... Ea. \$6.00

**Laburnum vossii**

MAGNOLIAS

One of the larger flowering trees. The large saucer-shaped flowers appear before the tropical looking leaves come on. Will stand a moist situation.

Magnolia alba superba

WHITE MAGNOLIA

Large, pure white flowers.

3 to 4 ft. Ea. \$10.00

M. soulangeana

SAUCER MAGNOLIA

Same flowers as above but has a purplish color outside of flowers.

2 to 3 ft. Ea. \$5.50 | 3 to 4 ft. Ea. \$8.50

4 to 5 ft. Ea. \$15.00

M. soulangeana nigra

DARK SAUCER MAGNOLIA

Flowers the same as above except much deeper purple.

2 to 3 ft. Ea. \$5.50 | 3 to 4 ft. Ea. \$8.50

4 to 5 ft. Ea. \$15.00

M. stellata

STAR MAGNOLIA

The Star Magnolia grows into a large shrub rather than a tree. Pure white star shaped flowers, smaller than above. Blooms very early.

2 to 3 ft. Ea. \$10.00 | 3 to 4 ft. Ea. \$12.00

**Saucer Magnolia (Magnolia Soulangeana)**

FLOWERING CRABAPPLES

Malus atropurpurea

PURPLELEAF CRAB

Red-purple foliage with deep red flowers; bears red fruit. More spreading growth habit than some.

4 to 5 ft., B&B... Ea. \$6.00 | 6 to 7 ft., B&B... Ea. \$12.00

5 to 6 ft., B&B... Ea. 10.00 | 7 to 8 ft., B&B... Ea. 15.00

M. eleyi

ELEYI CRAB

Masses of red blossoms, bronzy-green foliage with bunches of crimson fruit in the Fall. Upright growth habit.

5 to 6 ft., B&B... Ea. \$10.00 | 6 to 7 ft., B&B... Ea. \$12.00

M. floribunda

JAPANESE FLOWERING CRAB

One of the favorites. It is of spreading growth habit and a prolific bloomer. The tree is completely covered with pale pink flowers in early Spring followed by yellow fruit in the Fall.

3 to 4 ft., B.R... Ea. \$6.00 | 5 to 6 ft., B&B... Ea. \$10.00

**Flowering Crabapple**

Flowering Cherry Trees

FLOWERING PLUM

Prunus pissardi

PURPLELEAF PLUM

A small ornamental tree reaching a height of 12 to 15 ft. The leaves remain a beautiful deep bronzy-red color all Summer. The flowers are single pink and appear in Spring. Use this tree for color contrast.

4 to 5 ft. Ea. \$5.00
5 to 6 ft. Ea. 7.50

MOUNTAIN ASH

Sorbus aucuparia

EUROPEAN MOUNTAINASH

This small tree can be grown in most small gardens without damage to plants around it. A fine leaved, upright tree bearing large clusters of white flowers followed by clusters of orange-red berries that the birds love.

5 to 6 ft., B&B. Ea. \$5.00
6 to 8 ft., B&B. Ea. 9.00
8 to 10 ft., B&B. Ea. 12.00

FLOWERING CRABAPPLES — Continued

M. hopa

HOPA CRAB

This is an upright form, with purplish-green leaves and large red flowers. It bears red fruit which can be used for jelly. A very showy tree in Spring or Fall.

5 to 6 ft., B&B. Ea. \$10.00 | 6 to 7 ft., B&B. Ea. \$12.00

M. ioensis plena

BECHTEL'S CRAB

A small roundheaded tree. Double pink flowers shaped like little Roses with a delicate violet scent. Bears no fruit.

4 to 5 ft., B&B. Ea. \$5.00 | 5 to 6 ft., B&B. Ea. \$10.00

M. Pink Weeper

WEeping CRAB

The branches weep and droop to the ground. Makes a perfect small specimen tree for the lawn. The flowers are crimson-purple and the buds blood-red, followed by red fruit in the Fall. This tree in bloom is a sight not easily forgotten.

Single flowering low weeping variety.

4 to 5 ft., B&B. Ea. \$10.00 | 5 to 6 ft., B&B. Ea. \$12.00
6 to 7 ft., B&B. Ea. \$18.00

M. sargentii

SARGENT'S CRAB

A rather dwarf bushy variety. Flower buds are pink opening up to beautiful white flowers. Red fruit appears in the Fall and persists until Spring.

5 to 6 ft., B&B. Ea. \$12.00

M. spectabilis

CHINESE CRAB

A large, well shaped tree with good foliage. The flowers are semi-double shell pink and fragrant. Fruit is pale yellow.

6 to 7 ft., B&B. Ea. \$12.00

LABURNUM

Laburnum vossii

GOLDENCHAIN TREE

Small ornamental tree with green bark and foliage like clover leaves. Flowers are golden yellow and formed like those of Wisteria. The hanging clusters are 15 to 18 ins. long, borne in Spring.

5 to 6 ft. Ea. \$10.00 | 6 to 7 ft. Ea. \$12.50

FLOWERING CHERRIES

A very beautiful Spring flowering tree, seldom growing over 25 ft. This May flowering tree can be had in upright, spreading or weeping forms. The trees are sterile so they bear no fruit. Our plants listed below are all hardy in this area.

Prunus Amanogawa

An upright form, pale pink semi-double flowers in profusion.

4 to 5 ft. Ea. \$6.50 | 5 to 6 ft. Ea. \$10.00
6 to 7 ft. Ea. \$12.00

P. Fugenzo

Rather late flowering but considered one of the finest garden varieties. Well shaped small tree loaded with deep rose-pink blossoms.

4 to 5 ft. Ea. \$6.50 | 5 to 6 ft. Ea. \$10.00
6 to 7 ft. Ea. \$12.00

P. Kwanzan

Probably the most popular and best known double. Flowers very large, up to 2 ins., deep rosy-pink.

4 to 5 ft. Ea. \$6.50 | 5 to 6 ft. Ea. \$10.00
6 to 7 ft. Ea. \$12.00

P. subpendula

WEeping CHERRY

These are grafted on a straight trunk about 6 ft. off the ground. Bright pink, single blooms.

5 to 6 ft. Ea. \$11.00 | 6 to 7 ft. Ea. \$12.50

SORREL TREE

Oxydendrum arboreum

SORREL TREE

A very desirable flowering tree on the dwarf side. This tree can be had in either a single stem or a clump. The fragrant white flowers hang in clusters in Summer when most other flowering trees are finished. In the Fall the fine foliage turns a brilliant scarlet.

4 to 5 ft. Ea. \$8.00 | 6 to 7 ft. Ea. \$12.00
5 to 6 ft. Ea. 10.00 | 7 to 8 ft. Ea. 16.00

SHADE TREES

A shade tree makes a wonderful air conditioner. By giving off water it cools the air around it. A tree can be selected for either dense or light shade. If a heavy shade is desired, a quick growing large leaved tree such as a Norway Maple or Sycamore could be used. If a lighter shade is preferred the Pin Oak is an excellent selection.

MAPLES

Acer palmatum atropurpureum

JAPANESE REDLEAF MAPLE

A magnificent purple-red foliated small tree or shrub. A beautiful plant at all seasons and used mainly for lawn specimens.

15 to 18 in.Ea. \$3.00 | 2 to 2½ ft.Ea. \$10.00
18 to 24 in.Ea. 6.00 | 4 to 5 ft.Ea. 35.00

A. platanoides

NORWAY MAPLE

The best of the Maples for use as a shade tree. It grows rapidly and forms a beautiful round head. Even a small one planted now will give shade in just a few years.

1½ to 2 in. cal. Ea. \$20.00 | 2 to 2½ in. cal. Ea. \$30.00
2½ to 3 in. cal.Ea. \$40.00
Larger trees priced upon selection

A. platanoides schwedleri

SCHWEDLER MAPLE

The same as the Norway Maple in form and growth habit. The difference is that it comes out scarlet in the Spring and then retains a deeper green color through the growing season.

1½ to 2 in. cal.Ea. \$20.00
2 to 2½ in. cal.Ea. 30.00

A. platanoides schwedleri nigra

Plant Patent 735

CRIMSON KING MAPLE

A few years ago this red leaved Maple was sent to America from Europe to try out. It proved perfectly hardy and will thrive wherever Maples grow. The leaves come out crimson in the Spring and remain that color until they shed their leaves in the late Fall. Due to it being a new variety there are no large sizes available.

8 to 10 ft., B&B.Ea. \$12.00
10 to 12 ft., B&B.Ea. 16.00

A. saccharum

SUGAR MAPLE

This Maple attains a much greater height than the Norway Maple, but takes a little longer for the top to develop. The Fall is when this tree is really outstanding, the foliage turning a brilliant golden yellow to a vivid scarlet.

1½ to 2 in. cal. Ea. \$20.00 | 2 to 2½ in. cal. Ea. \$25.00
2½ to 3 in. cal.Ea. \$40.00
Larger trees priced upon selection

BIRCHES

This group of trees are among the most graceful of all trees. Wherever a small tree can be used, Birches will fill the bill. Use them in groups or as single specimens. Planted in front of Evergreens their shiny white bark is a beautiful contrast to the dark Evergreens when used in groups. Underplant them with Laurel and Azaleas for a naturalizing effect; drifts of Daffodils and Narcissus are very good. Birches like a moist situation but not particular as to soil.

Betula alba

EUROPEAN WHITE BIRCH

The whitest of all Birches even when very young. Single stem and very graceful.

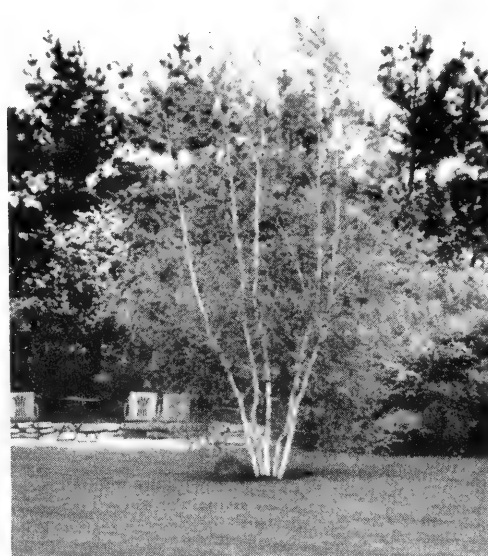

6 to 7 ft.Ea. \$9.00 | 7 to 8 ft.Ea. \$15.00

B. populifolia

GRAY OR SILVER BIRCH

This is a native of this part of the country and the most popular of the Birches. Grown in clumps of three or more stems. Very effective for naturalizing.

8 to 10 ft. clump.Ea. \$14.00
10 to 12 ft. clump.Ea. 20.00
12 to 14 ft. clump.Ea. 35.00

White Birch Clump

B. alba laciniata

CUTLEAF WEEPING BIRCH

Graceful weeping branches with finely cut foliage, the bark very white and peeling. A gem in your garden especially in the drab Wintertime.

5 to 6 ft.Ea. \$7.00 | 12 to 14 ft.Ea. \$20.00

BEECH

Fagus americana

AMERICAN BEECH

One of our most sturdy and long lived native trees. The bark is light gray and resembles the hide of an elephant. Grows into a very large tree, so give it plenty of room.

6 to 8 ft.Ea. \$20.00 | 8 to 10 ft.Ea. \$30.00

LOCUSTS

An ideal shade tree where filtered shade is desired. No problem to grow a lawn under this tree because of the light shade. One of the fastest growing shade trees.

Gleditsia triacanthos inermis

THORNLESS HONEYLOCUST

This is a thornless variety of the old Locust, very hardy, long lived and free from most insects and diseases.

1 to 1¾ in. cal. Ea. \$10.00 | 2 to 2½ in. cal. Ea. \$30.00
5 in. cal.Ea. \$150.00 to \$175.00

G. Moraine (Plant Pat. No. 836)

MORAINE LOCUST

A new hardy, fast growing shade tree resembling the American Elm a great deal. Because of the killing Dutch Elm disease nurserymen came up with this one to take the Elm's place. It is thornless and does not produce unsightly seed pods. A new variety, so only young trees are available.

5 to 6 ft.Ea. \$6.00 | 6 to 8 ft.Ea. \$10.00

SWEET GUM

Liquidambar styraciflua

SWEET GUM

Beautiful shade or ornamental tree. Has bright, shiny, star-shaped leaves that turn a blazing crimson in the Fall. Likes a moist situation and is resistant to insects.

1½ to 2 in. cal...Ea. \$20.00 | 2 to 2½ in. cal...Ea. \$30.00

SYCAMORE

Platanus acerifolia

LONDON PLANE TREE

Attains a great height and spread, ideal for a shade tree. Bark peels off revealing a creamy white underbark. This is widely planted as a street tree.

1½ to 2 in. cal...Ea. \$18.00 | 2½ to 3 in. cal...Ea. \$40.00

POPLAR

Populus italica nigra

LOMBARDY POPLAR

A tall growing, columnar tree useful for street plantings, screening or windbreaks. Very fast growing; will stand moist soil.

6 to 8 ft.....Ea. \$2.50

SHADE TREES FOR CLIMATE CONTROL

**Quality You Can See
At Prices You Can Afford**

Pin Oak in fall coloring

Crimson King Maple (Plant Pat. No. 735)

OAK

Quercus palustris

PIN OAK

The fastest growing of all Oaks. Grows into a pyramidal form, so is ideal for street planting. Lends itself very well to lawn plantings because of its deep rooted habit. Leaves turn a beautiful red in the Fall.

1 to 1½ in. cal...Ea. \$9.00 | 1¾ to 2 in. cal...Ea. \$20.00

1½ to 1¾ in. cal...Ea. 12.00 | 2 to 2½ in. cal...Ea. 30.00

2½ to 3 in. cal.....Ea. \$40.00

All B&B

WILLOW

Salix niobe

GOLDENTWIG WEEPING WILLOW

A water feature is not complete without a Weeping Willow. This Goldentwig Willow is even beautiful in the Winter with its drooping branches of reddish-yellow color. Plant in a moist or wet spot if possible, but keep it away from any drainage or septic systems. Grows very big and fast, so give it plenty of room.

6 to 7 ft.....Ea. \$5.00 | 2 to 2½ in. cal...Ea. \$25.00

1½ to 2 in. cal...Ea. 15.00 | 2½ to 3 in. cal...Ea. 35.00

LINDEN

Tilia tomentosa

SILVER LEAVED LINDEN

The best variety of Linden for this section of the country. It bears fragrant flowers and the underside of the leaf is silvery, causing it to shimmer in the wind. Well suited for city street plantings because of its tolerance to smoke and exhaust fumes.

5 to 6 ft. high...Ea. \$10.00 | 2 to 2½ in. cal...Ea. \$25.00

Vines and Ground Covers

There is a vine or ground cover to fit every situation. Vines may be used to cover a wall or an ugly fence or perhaps soften a sharp corner. On a trellis or arbor they will offer cooling shade or mark an entrance to a garden. Ground covers will quickly cover a bare bank to keep the soil from washing or they can be planted in the shade where it's impossible to grow grass.

- Ampelopsis veitchii** **BOSTON IVY**
2-year-old, potted.....Ea. \$1.00
- Eignonia radicans** **TRUMPETCREEPER**
2-year, potted.....Ea. \$1.00

FRUIT TREES

Use Fruit Trees in your landscaping. Besides the delicious fruit they bear, these trees are also ornamental.

With the new and improved varieties there is an unlimited number to choose from. The care of fruit trees has been simplified a great deal with the combination sprays and dusts that are now offered on the market. The dwarf trees are excellent for small properties.

ROSES (THESE PLUS MANY MORE VARIETIES)

Roses are the most loved of all the flowers in the garden. Their fragrance and beautiful colors are a sheer joy to behold. With the different varieties offered below it is possible to enjoy these beautiful flowers from early Spring till late Fall.

PATENTED EVERBLOOMING HYBRID TEA ROSES (Bare root)

PINK VARIETIES

- Capistrano.** (Plant Pat. 922.) Clear pink, fragrant. \$2.00 each.
Helen Traubel. (P. P. 1028.) Pink to apricot, fragrant. \$2.50 each.
K. T. Marshall. (P. P. 607.) Deep coral-pink with yellow. \$1.75 each.
Queen Elizabeth. (P. P. 1259.) Grandiflora. Coral-peach. \$3.00 each.
Show Girl. (P. P. 646.) Deep pink, fragrant. \$2.00 each.
Tiffany. (P. P. 1304.) Phlox-pink, fragrant. \$2.75 each.

YELLOW VARIETIES

- Buccaneer.** (P. P. 1119.) Grandiflora. Golden yellow. \$2.25 each.
Diamond Jubilee. (P. P. 824.) Buff-yellow, fragrant. \$2.00 each.
Peace. (P. P. 591.) Canary-yellow to cream, edged with pink. \$2.50 each.
Sutter's Gold. (P. P. 885.) Yellow-orange, fragrant. \$2.25 each.
Tawny Gold. (P. P. 950.) Golden, very fragrant. \$2.25 each.

RED VARIETIES

- American Flagship.** (P. P. 676.) Velvety red. \$2.50 each.
Charlotte Armstrong. (P. P. 455.) Large, spectrum-red. \$2.00 each.
Chrysler Imperial. (P. P. 1167.) Large, brilliant red, fragrant. \$2.50 each.
Mirandy. (P. P. 632.) Maroon-red. Damask fragrance. \$2.00 each.
Volcano. (P. P. 951.) Large, cherry-red. \$1.75 each.

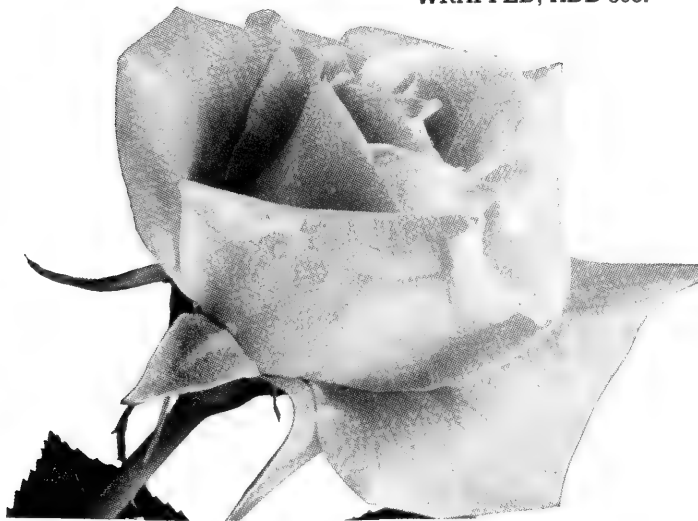

WHITE VARIETIES

- Neige Parfum.** White, fragrant. \$1.75 each.
Sleigh Bells. (P. P. 1004.) Large, white, fragrant. \$2.00 each.
White Swan. (P. P. 1115.) Pure white. \$2.25 each.

RUST AND TWO-TONE VARIETIES

- Mojave.** (P. P. 1176.) Apricot-orange, red and vermilion. \$2.75 each.
Shades of Autumn. (P. P. 542.) Red to pink, yellow center. \$2.25 each.

**POTTED OR GOLD FOIL
WRAPPED, ADD 50c.**

Mojave. (Plant Pat. No. 1176)

Etoile de Hollande

OTHER EVERBLOOMING HYBRID TEA ROSES

(Bare root, \$1.25 each, \$12.50 per doz.)

RED VARIETIES

- Ami Quinard.** Dark maroon-red, semi-double.
Better Times. Brilliant cerise, fragrant.
Christopher Stone. Scarlet-red.
Etoile de Hollande. Bright red, very fragrant.
McGredy's Scarlet. Scarlet-red.
Poinsettia. Brilliant fire-red.
Red Radiance. Rose-red, large and fragrant.

YELLOW VARIETIES

- Eclipse.** Golden yellow.
Golden Charm. Clear yellow.
McGredy's Yellow. Bright yellow.
Mrs. P. S. du Pont. Golden yellow.
Sister Therese. Yellow.

WHITE VARIETIES

- Caledonia.** Large, white, slightly fragrant.
Frau Karl Druschki. Pure white.
K. A. Viktoria. Pearly white, lemon center, fragrant.

PINK VARIETIES

- Betty Uprichard.** Salmon-orange.
Briarcliff. Pale pink.
Dame Edith Helen. Glowing pink.
Edith Nellie Perkins. Salmon-pink to copper-rose.
Editor McFarland. Pink.
Margaret McGredy. Scarlet-orange to carmine-rose, fragrant.
Numa Fay. Coral-pink, fragrant.
Pink Radiance. Cameo-pink, intensely fragrant.

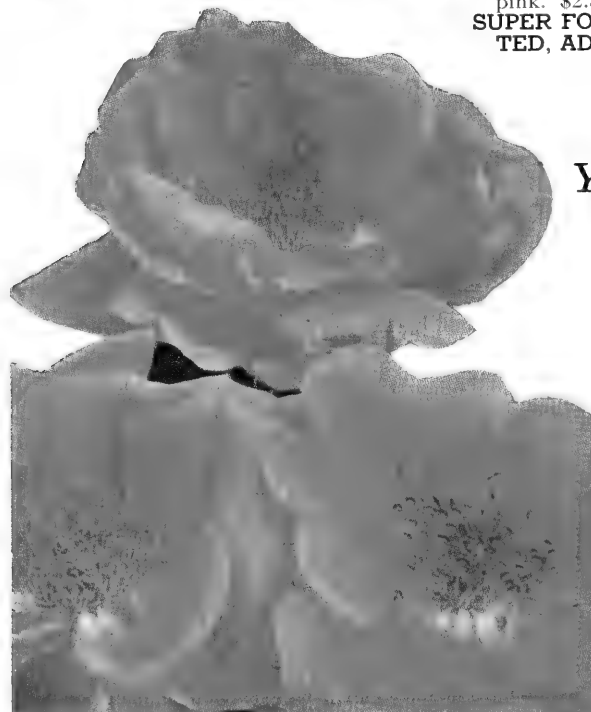

TWO-TONE VARIETIES

- Condesa de Sastago.** Coppery pink inside, golden outside.
Countess Vandal. Copper, bronze and yellow.
President Herbert Hoover. Maroon and orange, fragrant.
Signora. Mandarin and salmon.
Talisman. Red and yellow buds open to orange and coral.

SUPER FOIL WRAPPED: \$1.75 each, \$17.50 per doz.

New Blaze Climber

Fashion. (Plant Pat. No. 789)

CLIMBING ROSES (Bare root)

RED VARIETIES

- Climbing Crimson Glory.** (P. P. 736.) Deep crimson. \$2.50 each.
Climbing Etoile de Hollande. Bright red, fragrant. \$1.50 each.
Climbing Night. (P. P. 439.) Deep-est red, fragrant. \$1.75 each.
Gladiator. (P. P. 1524.) Large, brilliant rose-red. \$2.75 each.
New Blaze. Best everblooming red. \$1.50 each.
Parade. (P. P. 1253.) Rose-red. \$2.50 each.
Paul's Scarlet. Scarlet-red. \$1.25 ea.
Spectacular. (P. P. 1416.) Scarlet, fragrant. \$2.50 each.

YELLOW VARIETIES

- Climbing Goldilocks.** (P. P. 1090.) Golden yellow. \$2.50 each.
Climbing Talisman. Yellow and red. \$1.25 each.
Climbing Peace. (P. P. 932.) Yellow, buff and apple-blossom. \$2.50 each.
Golden Climber. Large, golden yellow. \$1.50 each.
King Midas. (P. P. 586.) Golden yellow. \$1.50 each.

WHITE VARIETIES

- Silver Moon.** Creamy white, large. \$1.50 each.

PINK VARIETIES

- Aloha.** (P. P. 948.) Coral-pink. \$2.50 each.
Dr. J. H. Nicolas. (P. P. 457.) Pink, fragrant. \$2.00 each.
Morning Dawn. (P. P. 1447.) Rose flushed salmon. \$2.50 each.
New Dawn. Soft pink. \$1.50 each.
Pink Cloud. (P. P. 1140.) Rich deep pink. \$2.50 each.

ANNUALS

Flatted and Potted

Now is the time when most of us are thinking about our gardens.

The first step in our plans is to decide what flowers we want to grow in order to get continuous bloom throughout the season. The second, we must consider our color scheme.

You will find in this list the finest selection of Annuals that we consider worth growing in your garden.

We grow our Annuals in pots and flats; these plants are started in February in our greenhouses assuring you a strong, sturdy plant ready to bloom when set out in your garden.

We have a good selection of **Tuberous-rooted Begonias** of the Camellia-flowered type. We carry a full line of the **Most Popular Vegetables** in pots and flats.

Ageratum
Alyssum
Asters
Begonias
Boston Daisies
Calendulas
Carnations
Celosia

GARDEN TOOLS AND ACCESSORIES

Our store is well stocked with garden tools and accessories. Besides all the digging and cutting tools, we carry hose, trellises, fertilizer spreaders and anything you might need to make gardening a pleasure instead of a chore.

ORGANIC FERTILIZERS

FARMANURE

Contains 75% dehydrated poultry manure and 25% peat moss; this fertilizer is clean and dry and easy to apply.

7½ lbs.	\$0.65	25-lb. bag.	\$1.50
50-lb. bag.			\$2.50

PEAT MOSS

One of the best materials for mulching, especially Broadleaf Evergreens because of its high acid content.

Standard.	\$5.45	Junior.	\$3.65	Handy.	\$2.35
Car bale.					\$3.95

HUMUS

A natural soil builder, rich in organic matter and plant food. Especially good for building up poor soils.

Per cubic yard.	\$9.50	Packed in bags.	\$1.95
-----------------	--------	-----------------	--------

MICHIGAN PEAT MOSS

It's Bactivated—98% Organic

Combines benefits of Peat Moss, Humus and chemical soil conditioners in one product.

½ pk.	\$0.59	1 bu. (25 lbs.)	\$1.69
1 pk.	.98	2 bu. (50 lbs.)	2.49
4 bu. (100 lbs.)			\$4.49

FOR PEST CONTROL

5% Chlordane

This is considered one of the best all around chemicals for the control of grubs and chinch bugs in the lawn. By applying chlordane to the lawn you also eliminate moles that feed on worms and grubs and cause those unsightly runs.

25 lbs. Dust.	\$4.75	25 lbs. Granular.	\$5.75
50 lbs. Dust.	9.00	50 lbs. Granular.	11.00

Our store is well stocked to keep your garden in top shape

SOIL BUILDERS AND FERTILIZERS

All prices subject to change without notice

Your success in the garden depends a great deal on the condition and nutrient content of your soil. Here is a list of fertilizers and soil builders that if used properly will give you utmost satisfaction.

5-10-5

80 lbs. \$3.00

AGRICO—For Lawns, Trees and Shrubs

Watch your lawn turn a deep green when fed with this fertilizer Spring and Fall. This is also the recommended food for trees and shrubs.

5 lbs.	\$0.60
10 lbs.	1.10
25 lbs.	1.75
50 lbs.	2.75
100 lbs.	5.40

AGRICO—For Gardens

For flowers of greater size and beauty—vegetables with larger yields—more mineral and vitamin content.

5 lbs.	\$0.60
10 lbs.	1.10
25 lbs.	1.60
50 lbs.	2.55
100 lbs.	5.00

AGRICO—For Broadleaf Evergreens

This is the fertilizer that should be used on Rhododendrons, Laurel, Azalea and other acid-loving plants. Because of the acid loving nature of these plants an acid fertilizer is the only kind to use.

5 lbs.	\$0.65
10 lbs.	1.25
25 lbs.	2.00
50 lbs.	3.15
100 lbs.	6.25

ALUMINUM SULPHATE

Laurel, Rhododendron, Azaleas, etc., will not tolerate an alkaline soil, but by using Aluminum Sulphate this situation can be corrected. Once the pH has been lowered, your plants will soon take on that dark green, healthy look again.

7½-lb. bag. \$1.10 | 25-lb. bag. \$2.80

AGRICO ROSE FOOD

A complete fertilizer for Roses.

5-lb. bag.	\$0.90
10-lb. bag.	1.50
25-lb. bag.	3.05

GOLDEN VIGORO

A new slow acting fertilizer that will not burn. One application feeds for one season.

50 lbs. \$3.75

AGRICO—For Turf

10-6-4—50% Organic

50 lbs.	\$4.25
80 lbs.	6.50
100 lbs.	8.00

NITROGANIC

A wonderful soil conditioner; 100% organic.
80 lbs. \$4.35

AGRINITE

A fertilizer that is 100% organic and high in nitrogen content (8¼%). This nitrogen is slow acting, will not leach out and is available to the plants over a longer period of time than the chemical types.

25 lbs.	\$1.65
80 lbs.	4.45

GLORION

There is no other soil builder like **Glorion** for the finest lawn and garden on your block. Conditions and rebuilds your soil as it fertilizes. A complete fertilizer, nothing else to add. Just follow instructions on bag.

25 lb. bag.	\$3.25
50 lb. bag.	5.95
80 lb. bag.	8.75

SUPERPHOSPHATE

A fertilizer to stimulate root growth and increase your flower and fruit production.

5 lbs.	60c.	10 lbs.	\$1.10	25 lbs.	\$1.80
80 lbs.			\$2.25		

BONE MEAL

5 lbs.	\$0.69	25 lbs.	\$2.65
10 lbs.	1.29	50 lbs.	3.70

AGRICULTURAL LIME

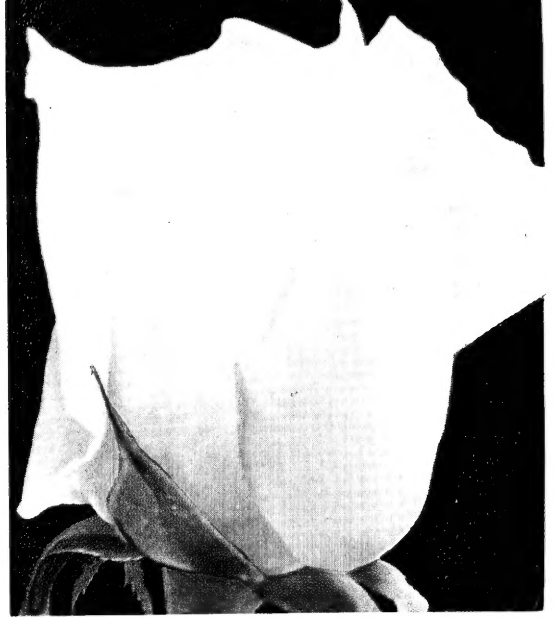

A finely ground limestone for use in your garden and on your lawns. This is a slower, longer lasting lime than the hydrated kind.

50 lbs.	75c.	100 lbs.	\$1.25
1 ton.			\$20.00
